ALBA   3

Safety information 1

⚠️ Safety information

Important - Please read these instructions fully before installing or operating

CAUTION
RISK OF ELECTRIC SHOCK
DO NOT OPEN

CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER(OR BACK). NO USER-SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock of persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

Power source

- The TV should be operated only from a 100-240V AC, 50 Hz outlet.
- **Warning:** Do not leave your TV in standby or operating mode when you leave your house.

Positioning the TV

- For ventilation, please leave a clear space of at least 10cm all around the TV.
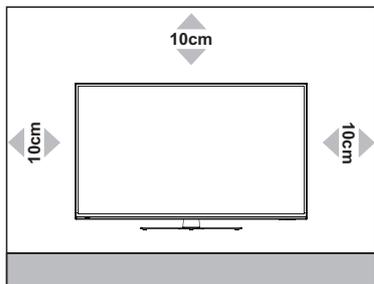

- **Do not** block the ventilation openings.
- Do not place the TV on sloping or unstable surfaces, the TV may tip over.
- To prevent damage to the TV, do not place any objects on top of the TV.
- Only use the TV in moderate climates.

Power cord and plug

- The power cord plug should be easily accessible. In case of storms and lightning, when going on holiday, or when the TV is not used for a long period of time disconnect the power cord from the mains power socket.
- **Do not** place the TV, furniture, etc. on the power cord or pinch the cord.
- Handle the power cord by the plug, do not unplug the TV by pulling the power cord.
- Never touch the power cord/plug with wet hands as this could cause a short circuit or electric shock.
- Never make a knot in the power cord or tie it with other cords.
- Power cords should be placed in such away that they are not likely to be stepped on or driven over.
- A damaged power cord/plug can cause fire or give you an electric shock. When damaged it must be replaced, this should only be done by qualified personnel.

Moisture and Water

- **Do not** use this TV in a humid or damp place (avoid bathrooms, the sink in the kitchen, and near the washing machine).
- **Do not** expose this TV to rain or water, as this may be dangerous.
- **Do not** place objects filled with liquids, such as flower vases, on top of the TV. Avoid from dripping or splashing.
- If any solid object or liquid falls into the cabinet, unplug the TV and have it checked by qualified personnel before operating it any further.

Ventilation

- The slots and openings on the TV set are intended for ventilation and to ensure reliable operation.
- To prevent overheating, these openings must not be blocked or covered in anyway.

If you require any technical guidance or find that your product is not operating as intended, a simple solution can often be found in the **Troubleshooting** section of these instructions,

⚠ Safety information

Important - Please read these instructions fully before installing or operating

Headphone volume
- Excessive sound pressure from earphones and headphones can cause hearing loss, please take care.

Headphone volume
To prevent injury, please make sure TV must be attached to the wall accordingly to the instalation instructions (if the option is available).

LCD Screen
- The LCD screen is a very high technology product with about a million thin film transistors, giving you fine picture details. Occasionally, a few non-active pixels may appear on the screen as a fixed blue, green or red point. Please note that this does not affect the performance of your product.
- Take care not to scratch the screen with fingernails or other hard objects.

Cleaning
- Before cleaning, unplug the TV from the wall socket.
- **Do not** use liquid or aerosol cleaners. Only use a soft, dry cloth.

Batteries
- **Warning:** Incorrect installation of batteries may cause battery leakage and corrosion, resulting in damage to the remote control.
- **Do not** mix old and new batteries, or batteries of different types.
- **Do not** dispose of batteries in a fire.
- **Do not** dispose of batteries with normal household waste, take to a local recycling centre.

Replacement parts
When replacement parts are required, make sure that the service technician has used replacement parts, which are specified by the manufacturer or have the same specifications as the original one. Unauthorised substitutions may result in fire, electrical shock or other hazards.

Servicing

Warning: Risk of exposure to radiation from class 1/class 3b visible and invisible laser beams. **Do not** open the TV and stare directly into beam.

Warning: Risk of electric shock, do not attempt to repair, service or modify this TV yourself. Contact the manufacturer, their approved service agent or the **Customer Helpline: 0345 604 0105** .

⊡ This equipment is a Class II or double insulated electrical appliance. It has been designed in such a way that it does not require a safety connection to electrical earth.

Warning: To prevent the spread of fire, keep candles or other open flames away from this t product a all times.

or online at **www.argos-support.co.uk** If you still require further assistance, call one of our experts on **0345 604 0105.**

Getting Started   2

Getting Started
You'll be up and running in no time

TV - Features

- Remote controlled colour LCD TV.
- Fully integrated digital TV (DVB-T).
- HDMI connectors for digital video and audio. This connection is also designed to accept high definition signals.
- USB input.
- 100 programmes from VHF, UHF (analogue).
- 400 programmes for digital mode (DTV).
- OSD menu system.
- Scart socket for external devices (such as video, video games, audio set, etc.).
- Stereo sound system.
- Teletext, fastext, TOP text.
- Headphone connection.
- Automatic programming system.
- Forward or backward manual tuning.
- Sleep timer.
- Child lock.
- AVL (Automatic Volume Limiting).
- PLL (Frequency Search).
- PC input.
- Plug & Play for Windows 98, ME, 2000, XP, Vista.

Accessories included

TV

Remote Control
Batteries: 2 x AAA

MINI YPBPR Cable
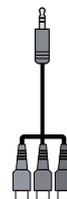

MINI AV Cable

Stand Base

Screws (4PCS)

Instruction Book

If you require any technical guidance or find that your product is not operating as intended, a simple solution can often be found in the **Troubleshooting** section of these instructions,

Getting Started
You'll be up and running in no time

Installing / Removing the Base Stand

Base Stand Assembly Instruction
1. Place the TV with the display side down on a flat surface.Use a cloth to protect. Locate the bottom at the stand.
2. Fix the bottom with turning the screw (4PCS)tightly on the stand.
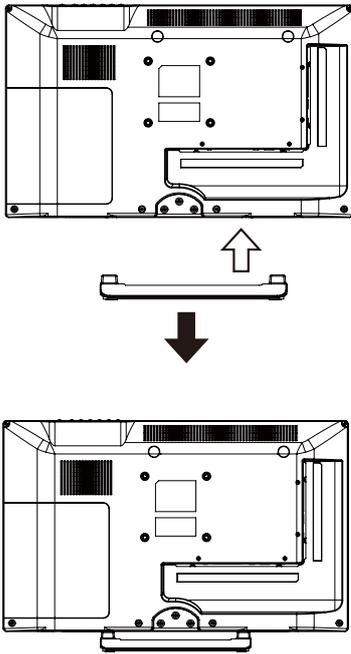

WALL MOUNTING INSTALLATION GUIDELINES
This television can be wall mounted as follows:

1. Place the LED LCD Television onto a solid surface. Please place some soft material over the front of the screen to protect it from any damage.
2. Remove the screws (4PCS) from the lower part of the television, where the base joins to the TV, and take away the stand (put the stand somewhere safe for future use).
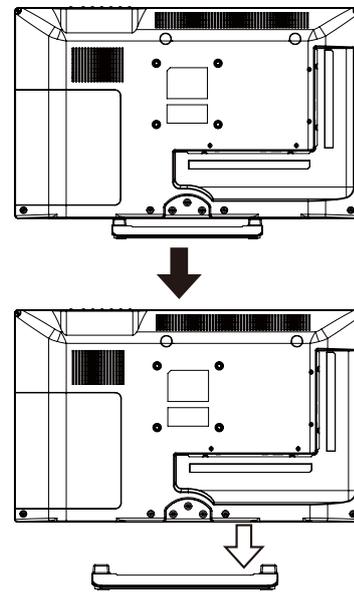

INSTALLATION NOTES

This TV can be connected to an AC 100-240 Volts, 50/60 Hz power supply. Never connect straight to a DC power supply.

Locate the TV in a room where light does not strike the screen directly. Total darkness or a reflection on the screen can cause eyestrain. Soft and indirect lighting is recommended for comfortable viewing.

Allow enough space between the TV and the wall to permit ventilation.

Avoid excessively warm locations to prevent possible damage to the cabinet or premature component failure.

3. Use the four screws provided to fix the TV onto a wall mounting bracket (not included) via the four VESA standard holes on the back of the television.
Wall-Mounting Screws
Mount the VESA bracket using M4*10 isometric threaded screws (Not Supplied).
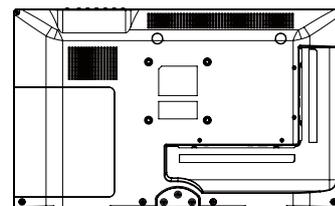

100 x 100mm VESA mount

Switching the TV On and Off

Switching the TV On
With power cord plug connected to the mains power socket and TV in '**Standby**' mode.
To switch the TV on from standby mode, either:

a: The Remote control; Press the " ⏻ " button.

b: The TV; Press the " ⏻ " button at the top of the TV.

Switching the TV Off
Either press the " ⏻ " button on the remote control or press the " ⏻ " button at the top of the TV, the TV will then switch to standby mode.

If you require any technical guidance or find that your product is not operating as intended, a simple solution can often be found in the **Troubleshooting** section of these instructions,

16   ALBA   Getting Started

Getting Started
You'll be up and running in no time

Operation using TV control buttons

The **VOL+/VOL-** buttons will function as volume up/down as default. Even if you set other functions for these buttons, the **VOL+/VOL-** buttons will return to volume control after a short while.

Volume Setting

Press **VOL+/VOL-** buttons to increase or decrease volume.

Programme Selection

Press **CH+/CH-** buttons to select the next or previous programme.
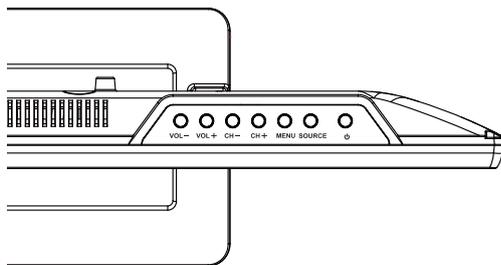

The remote control is designed to control all the functions of the model you selected.

Volume Setting

Press **VOL+** button to increase the volume. Press **VOL-** button to decrease the volume. A volume level scale (slider) will be displayed on the screen.

Programme Selection (Previous or Next Programme)

Press **CH-** button to select the previous programme. Press **CH+** button to select the next programme.

Programme Selection (Direct Access)

Press number buttons on the remote control to select programmes between 0 and 9. The TV will switch to the selected programme.

Getting Started
You'll be up and running in no time

Initial setup

1. Connect one end of the RF coaxial cable to the aerial socket on the wall and the other end of the cable to the RF (75Ω) socket at the bottom of your TV .

2. Connect the mains cable to the mains socket after you have completed all the connections.

3. With power cord plug connected to the mains power socket and TV in 'Standby' mode. At this stage, the TV switches to standby mode. The red LED indicator will illuminate on the front panel of the TV.

4. In standby mode, press the button ⏻ on the top of the TV or the ⏻ button on the remote control to turn the TV on. The red LED indicator will turn blue.

5. The first time you turn the TV on, it will go straight into **First Time Setup** menu. Press the ▲ ▼ ◄ ► buttons to navigate the menu and change the settings.

```
First Time Setup
OSD Language           ◄      English        ►
Mode Setting                 Home Mode
Country                         UK
Auto Scan                     DTV+ATV

                    Start

⬍ Move   ◄► Adjust        MENU: Return   EXIT: Exit
```
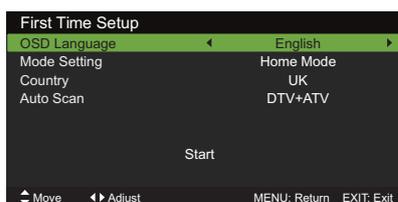

OSD Language

Selects your desired language to be displayed on the menu. The default on-screen menu language is set as English.

Mode Setting

Selects your desired mode setting.
• Home Mode: Viewing at home.
• Store Mode: For store demo, the brightness is higher than home mode.

Country

Selects the country where you will operate the TV. The default country is set as UK.

Auto Scan

Selects the auto scan type: DTV+ATV / DTV /ATV.

Initial setup

Start

Press the **OK** button to start auto tuning. Auto Scan will commence. The display will show the progress of the tuning and the number of channels found.

```
Auto Scan
Scanning 158.25 MHz

Digital Channels Found:
DTV :0 Radio :0 Data:0

Analog Channels Found: 0

                        MENU: Skip    EXIT: Exit
```
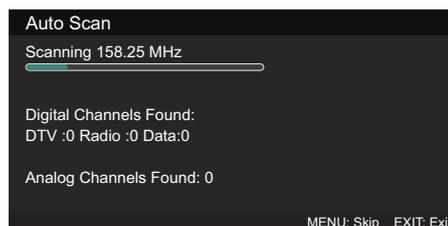

6. If you want to skip the DTV tuning, press the **MENU** button to interrupt the tuning half way. You will then go straight to ATV tuning. You may repeat the above step if you also want to skip the ATV tuning.

General operation

Press the **SOURCE** button on the remote control and select DTV to switch the TV to Digital Terrestrial Television Broadcasting.

Information Banner

Whenever you change channel using the **CH+/ CH-** buttons or the number buttons, the TV displays the broadcast picture along with an information banner on the top left of the screen (available only in **DTV/ATV** mode).

The information banner can be displayed at any time while watching TV by pressing the **DISPLAY** button on the remote control.

If you require any technical guidance or find that your product is not operating as intended, a simple solution can often be found in the **Troubleshooting** section of these instructions,

18   ALBA   Getting Started

Connections 3

Connections
You'll be up and running in no time

Left side connections explained

1. **HDMI Input**

   Connects a device that has an HDMI socket. The TV can display High Definition pictures from devices such as a High Definition Satellite Receiver or DVD Player. These devices must be connected via the HDMI sockets or Component Socket. No sound connection is needed for an HDMI to HDMI connection.

2. **USB Input**

   To connect devices to the TV, providing fast data exchange. USB will have function in USB/DTV mode.

3. **YPbPr**

   YPbPr Input socket is just suitable for YPbPr Mini Cable.

   Connect to a DVD player, Digital Set-Top-Box, or other AV devices with component (YPbPr) video output sockets.

4. **AV**

   Connect to the composite VIDEO and AUDIO (L/R) output sockets on external video devices.

5. **CI Slot**

   Used to insert a CI card. A CI card allows you to view all the channels that you subscribe to. For more information, see "Conditional Access" section.
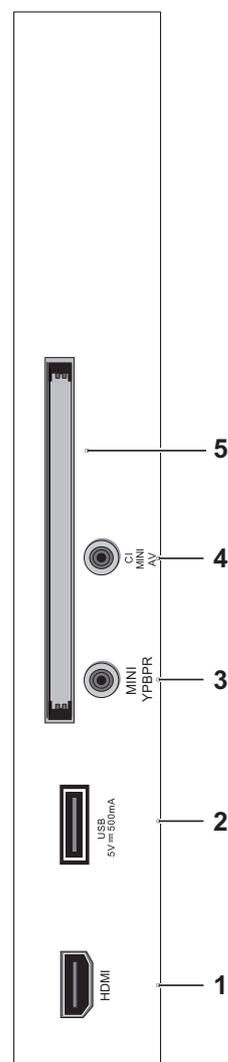

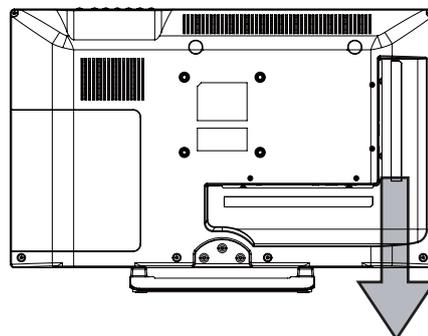

5 ——— CI MINI AV

4 ——— CI MINI AV

3 ——— MINI YPBPR

If you require any technical guidance or find that your product is not operating as intended, a simple solution can often be found in the **Troubleshooting** section of these instructions,

22   ALBA   Connections

Connections
You'll be up and running in no time

Left side connections explained

6. Headphone jack

To connect an external headphone to the TV. Connect to the HEADPHONE jack to listen to the TV from headphones.

Note: Headphone volume can be changed using "VOL+" or "VOL-" buttons.

7. PC Input (VGA) / PC AUDIO

Connects a personal computer to the TV. Connect the PC cable between the PC INPUT on the TV and the PC output on the PC.

Note: If you connect a device to the TV via the PC cable, you should also use an audio cable to connect your device to the PC AUDIO INPUT to enable audio.

8. SCART socket

Inputs or outputs for external devices Connect the SCART cable between the SCART socket on the TV and the SCART socket on the external device (decoder,   VCR or DVD player).

Note: If an external device is connected via the SCART socket, the TV will automatically switch to SCART mode.

9. COAXIAL

To connect to the audio socket on the digital/standard 5.1 audio system.

10. DTV/TV Input (ANT.)

Connects to aerial (antenna) or cable TV. If you use a decoder or a media recorder, you should connect the aerial cable through the device to the TV with an appropriate aerial cable.

11. OPTICAL

To connect to the audio socket on the digital/standard 5.1 audio system.

or online at **www.argos-support.co.uk** If you still require further assistance, call one of our experts on **0345 604 0105.**

Connections   ALBA   23
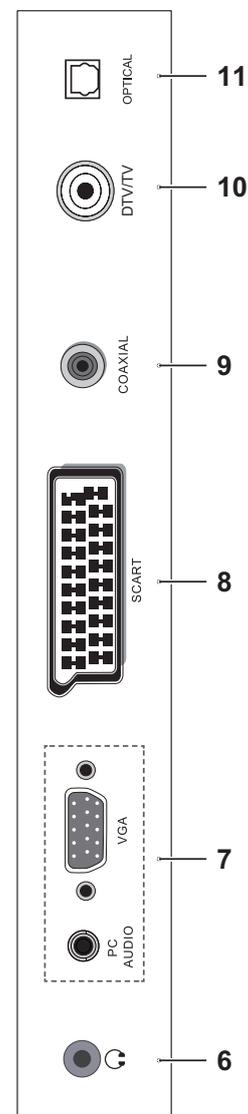

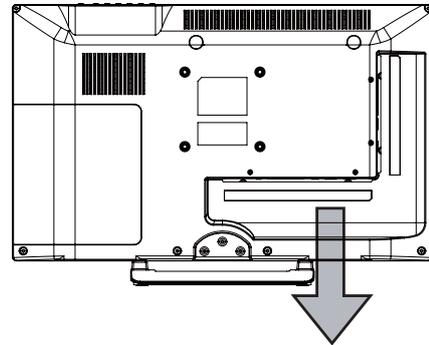

Connections
You'll be up and running in no time

HDMI Connections

HDMI lets you enjoy high definition digital images and high quality sound by connecting the TV to external devices such as DVD players, set top boxes or gaming equipment.

Power off both the TV and the device before making any connections.

For more information, refer to your device's own instruction book.

When connecting, switch "Source" to "**HDMI**". See, "Input Selection" section.

Note: HDMI cable is not supplied.
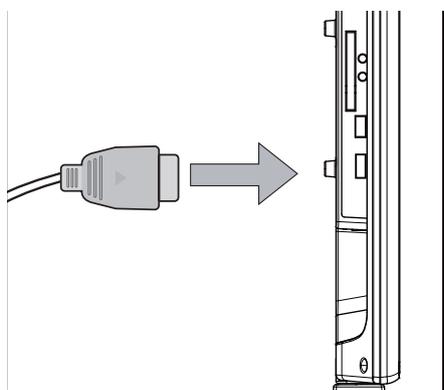

SCART Connections

Most devices support SCART connection. You can connect a DVD recorder, VCR or decoder to the TV using the SCART socket.

Power off both the TV and the device before making any connections.

For more information, refer to your device's own instruction book.

Note: The Scart cable is not supplied.
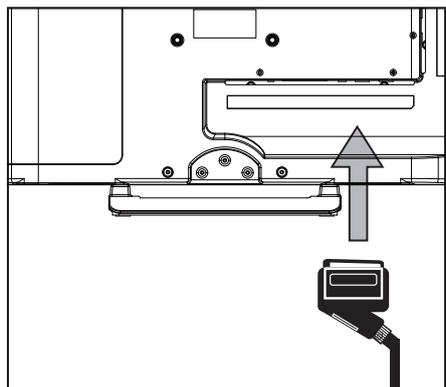

VGA Connections

You can connect a computer (PC) to the TV to display your computer's screen image on theTV.

Power off both computer and TV before making any connections.

Use a 15-pin D-sub display cable to connect a PC to the TV. Use an audio cable between PC AUDIO inputs on the left side of the TV and audio output on your PC to enable sound connection.

When the connection is made, switch "Source" to "**PC**". See "Input selection" section.

Set the resolution that suits your viewing requirements. Resolution information can be found in the "Appendix parts".

Note: The VGA cable is not supplied.

If you require any technical guidance or find that your product is not operating as intended, a simple solution can often be found in the **Troubleshooting** section of these instructions,
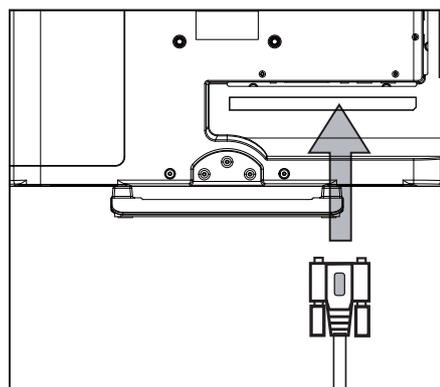

Basic Features 4

Basic Features
Let's get started

How to navigate menus - Selecting source

1. Press the **SOURCE** button on the top of the TV or the **SOURCE** button on the remote control to display the Input source list.

2. Press the ▲▼ buttons to select the input source that you want:DTV / ATV / SCART/ AV / YPbPr / HDMI / PC / USB.

3. Press **OK** button to comfirm your selection.

```

```

2. Press **EPG** button or **EXIT** button again to switch off EPG and return to normal TV viewing.

Info bar commands:

RED (PrevDate)

Press the **RED** button to view the schedule of the previous day.

GREEN (NextDate)

Press the GREEN button to view the schedule of the next day.

YELLOW (Schedule)

Press the **YELLOW** button to view the preset reminders in the schedule list. Press the **YELLOW** button to return to the EPG.

BLUE (Reminder)

Press the **BLUE** button while on the selected programme, the Reminder setting menu will be displayed.

Press the buttons ▲▼◀▶ to adjust the settings and then press the Save button to confirm the settings. After confirmation, the EPG Schedule List will then be displayed with your preset reminders shown. Press the **YELLOW** button to return to the EPG. The TV will automatically tune to the selected programme when it starts.

REC

Timer Programming.

OK

Press to display detailed information of the selected programme (if available).

If you require any technical guidance or find that your product is not operating as intended, a simple solution can often be found in the **Troubleshooting** section of these instructions,

28   **ALBA**   Basic Features

Basic Features
Let's get started

Teletext (ATV mode)

Teletext is a free service broadcast by some TV stations which gives up-to-the-minute information on news, weather, television programmes, share prices and many other topics. Using the Teletext control buttons you can view pages of information that are listed in the teletext index.

To Turn on Teletext Function

> ⚠️ Make sure the TV channel you are watching transmits teletext.
> "No Teletext" sign will show on the screen if teletext is not available.

In ATV mode, press the ◩ **TTX** button to enter Teletext mode. Press ◩ the INDEX button to display the index page.

Press the ◩ **TTX** button once to exit and the TV will return to the channel you were watching.

To select a page of text

Find the number of the page in the index and enter it using the **0-9** buttons. The number of the page will appear on the top left corner of the screen.

The page counter will search for your page. When it finds it, the page will be displayed.

To move to the next page of text, press the▲ button.

To move to the previous page, press the ▼button.

To return to the index page, enter the "**100**" by using the **0-9** buttons or press the ◩INDEX button.

Mix

To view a page of text while watching a TV programme, press the ◩ **TTX** button twice. The text will be superimposed over the TV programme.

Double height text

If you have difficulty reading the text on the TV you can double the height of the text.

Press the ⊟ **SIZE** button. The top half of the page will be displayed in double height text.

Press the ⊟ **SIZE** button again. The bottom half of the page will be displayed in double height text.

Press the ⊟ **SIZE** button again to return to the full page.

Page HOLD

If the page of text you have selected contains subpages, these subpages will automatically be displayed in order with a delay to allow you to have enough time to read the page.

To stop the movie to the next sub page, press the ⊟ **HOLD** button.

To continue moving through the sub pages, press the ⊟ **HOLD** button again.

Alternative: Press the ⊟ **SUBPAGE** button, and then use the 0-9 buttons to enter a 4-digit page number.

To Reveal Information

Press the ⊟ **REVEAL** button to reveal concealed information (quiz answers etc.).

Press the ⊟ **REVEAL** button again to conceal the information again.

Fasttext

At the bottom of the teletext screen is a row of subject headings in red, green, yellow and blue.

The remote control has a row of colour buttons corresponding to the row of coloured subjects on the screen.

Pressing one of the colour buttons will take you directly to the page corresponding to the subject heading.

Let's get started

Digital Teletext (DTV mode)

Digital teletext can access special digital teletext services and specific services which broadcast digital teletext. You will need to turn off Subtitle Function before using teletext.

1. In DTV mode, press the ✉ **TTX** button to display the teletext page.

2. Press the **0-9** buttons to select a page number.
3. Follow the instructions on digital teletext and move onto the next step by pressing **OK, ▲▼◄►** , **RED,**

    GREEN, YELLOW, BLUE or **0-9** buttons etc.
4. To change digital teletext service, select a different service by pressing the **0-9** buttons **▲▼** or the

    buttons.

    Alternative: You may press the **RED** button to the ✉ **TTX** button to display the teletext information when you see a ● red logo displayed on the screen (e.g. BBC).

5. Press the ✉ **TTX** button to exit.

Time Shift Function (DTV mode)

This function allows the TV to virtually record the live viewing broadcast programme.

Note: If the transfer rate of the USB storage device is too slow for recording or time shift function, a warning statement will be shown on the screen. If this happens, please upgrade your USB storage device.

⚠ • Time Shift Mode and Recording functions may not work if the signal strength is weak.
• Stop the time-shift function before switching to another input source.

During normal TV viewing, you may press the **TIMESHIFT** button to virtually pause the live viewing broadcast programme if you want to go out for a while (e.g. going to the bathroom / kitchen). " II " will show on the screen.

When you have returned, press the ▶II button to display the PVR Time Shift progress bar and then press the ◄► buttons to select " ▶" on the bar. Press the **OK** button to play the missed broadcast programme. " ▶" will show on the screen.

The video and sound may have a little bit of delay or be out-of-sync for a few seconds

when the unit starts to playback the missed broadcast programme. It will soon turn to normal.

The 'PVR Time Shift Progress Bar'
1 Indicates the status of the currently displayed video (▶ / II / ◄◄ / ▶▶)
2 Indicates the time lagging behind the live broadcast (PVR reviewing)
3 Indicates the available recording time on your USB storage device

If you require any technical guidance or find that your product is not operating as intended, a simple solution can often be found in the **Troubleshooting** section of these instructions,

Let's get started

Digital Teletext (DTV mode)

Using the Remote Control

You can shift playback to any point of the virtually recorded programme. Press the **TIMESHIFT** button to display the PVR Time Shift progress bar again.

TIMESHIFT

During playback, press the **TIMESHIFT** button to display a still screen.

◄◄ or ►►

When playing

• Press the ◄◄ button repeatedly to speed up ◄◄ x 2 / x 4 / x 8 / x 16.

• Press the ►► button repeatedly to speed up ►► x 2 / x 4 / x 8 / x 16.

• During fast forward / fast backward state, press the ►❙❙ button to return to normal playback.

❙◄◄ or ►►❙

• Press the ►►❙ button to jump about 10% forward.

• Press the ❙◄◄ button to jump about 10% back.

►❙❙

• During playback, press the ►❙❙ button to display a still screen and then press the ►❙❙ button again to resume playback.

• During fast forward / fast backward state, press the ►❙❙ button to return to normal playback.

OK / ■

If you want to exit the PVR Time Shift progress bar and return to the current live broadcast, press the **OK** / ■ button and then press the button to confirm.

Recording DTV Programme onto a USB Storage Device

Use this function to record the DTV programme you are watching on the main screen and save it for future viewing. The recording from timer programme or direct recording may have a little bit of delay when it starts to record the broadcast programme.

Please make sure the USB device is inserted. If not, a warning message will pop up.

Press the ● REC button to record the programme that you are currently watching.

⚠ To display the recording information, press the ● REC button.

```
Recording
●
Recorded Time : 00 : 00 : 47
Available Time: 3837 Minute
16 QVC
A Traditional Christ
```

Press the ■ Stop button to stop recording.

⚠ Recording will stop automatically when the disk is full.

⚠
• If a hard disk is used, make sure its mains adapter is connected to the mains supply.
• If a USB hub is used, make sure its mains adapter is connected to the mains supply as the total current consumption may exceed 500mA.
• The maximum supported storage space of the hard disk is 1 TB.
• The file system only supports FAT32 format.
• If you want to store the video streaming of a DTV programme, the transfer rate of the USB storage device must not be less than 5MB/s, otherwise the picture and sound of the programme will be affected and a warning statement will be shown on the screen. If this happens, please upgrade your USB storage device.
• The TV screen will be blank temporarily as it will take time to start up and stabilise the connected hard disk. This is normal and the starting time may vary depending on the brand and the memory size of the connected hard disk.
• Disconnect the USB storage device if it is not in use.

Basic Features   ALBA   33

Basic Features
Let's get started

Picture management

Picture Mode

Allows the selection of a picture-enhancement technical from among the following options: Dynamic / Standard / Mild / Personal.

Brightness

This item can adjust the optical fiber output of the entire picture; it will affect the dark region of the picture.

Contrast

This item can adjust the highlight intensity of the picture, but the shadow of the picture is invariable.

Sharpness

This item can adjust the peaking in the detail of the picture.

Saturation

This item can adjust the saturation of the colour based on your own like.

Hue

This item may use in compensating colour changed with the transmission in the NTSC code.

Colour Temp

This item can increase or reduce warm colour of the picture personally (red), and the cold colour (blue) according to your like. The choice of Cold, that means it will increase the blue tone for the white. But choosing the Warm, it will increasem the red colour for the white.

Aspect Ratio

Allows you to watch the screen in various picture formats: Auto / 4:3 / 16:9 / Zoom1 / Zoom2.

Advanced Settings

• Noise Reduction: Reduces the noise level of the connected device (Medium / Strong / Off / Weak).

• Dynamic Contrast: Adjusts the dynamic contrast (Medium / Strong / Off / Weak).

4. Press the **EXIT** button to exit menu.

Sound management

1. Press the **MENU** button to display the main menu. Press the ◀▶ buttons to select Sound in the ▼ main menu, then press the ▼ or **OK** button, it will highlight the first option.

2. Press the ▲▼ buttons to select the option you want to adjust in Sound menu.

3. Press the ◀▶▲▼ buttons to change the following settings.

TIPS:

• You can change the value of treble and bass   when the sound is in Personal mode.

• You can press the S.MODE button on the   remote control to change the Sound Mode directly.
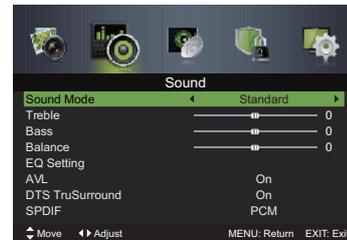

Sound Mode:

Allows the selection of an audio-enhancement technical from among the following options: Standard, Music, Movie and Personal. You can change the value of Treble and Bass when the sound is in Personal mode.

Treble

Controls the relative intensity of higher-pitched sounds.

Bass

Controls the relative intensity of lower-pitched sounds.

Balance

Adjusts the relative volume of the speakers in a multiple speaker system.

EQ Setting

Allows the selection of an equalizer mode: Off / Rock / Pop / Jazz / User. You can change the EQ value under User mode. AVL Selects to turn On/Off Audio Volume Leveler.

AVL

Selects to turn On/Off Audio Volume Leveler.

DTS TruSurround

This creates a feeling fitted to your TV when switched on. of having surround sound

---

If you require any technical guidance or find that your product is not operating as intended, a simple solution can often be found in the **Troubleshooting** section of these instructions,

Basic Features
Let's get started

Sound management (ATV / DTV Mode)

SPDIF Mode

Select TruSurround the digital audio output mode: Auto / Off /PCM.

Audio Description

Selects to turn On/Off Audio Description.

Stereo / Dual Sound Reception (ATV Mode)

When a programme is selected, press the **NICAM** button to display the sound information for the selected station.

Brodcast	On Screen Display
Mono	Mono
Stereo	STEREO
Dual	DUAL I, DUAL II, DUAL I+II

Mono sound selection

If the stereo signal is weak in stereo reception, you can switch to mono by pressing the **NICAM** button. In mono reception, the clarity of sound is improved. To switch back to stereo, press the **NICAM** button again.

Language selection for dual language broadcast

If a programme can be received in two languages (dual language), you can swith to DUAL I, DUAL II, DUAL I+II or Mono by pressing the **NICAM** button repeatedly.

DAUL I	Sends the primary broadcast language to the loudspeakers
DAUL II	Sends the secondary broadcast language to the loudspeakers
DAUL I+II	Sends the primary and secondary broadcast languages to the loudspeakers

⚠️ PLEASE NOTE
DTS TruSurround HD must be switched off to change Sound Mode and EQ settings.
Adjusting any picture or sound settings will automatically change the mode to Personal.
If you wish to reset all picture and sound adjustments:MENU>Setup>Reset

Basic Features

Let's get started

Setup management

First Time Setup

1. Press the **MENU** button to display the main menu. Press the ◄► buttons to select **Setup** in the main menu, then press the ▼ or the **OK** button, it will highlight the first option.

2. Press the ▲▼ buttons to select **First Time Setup** and then press the **OK** button.

3. Press the ◄►▲▼ buttons to navigate the menu and change the settings. Then it will search automatically for analog and digital TV programmes.

4. Press the **EXIT** button to exit the menu.

OAD (Over Air Download)

1. Press the **MENU** button to display the main menu. Press the ◄► buttons to select **Setup** in the main menu, then press the ▼ or the **OK** button, it will highlight the first option.

2. Press the ▲▼ buttons to select **OAD** and then press the **OK** button.

3. Press the ▲▼ buttons to select the over air download type.

Manual OAD Download

The TV auto detects the latest firmware through the DTV signal and allows you to accept or refuse the firmware upgrade service.

Auto Download

The TV auto detects the latest firmware through the DTV signal and upgrades the firmware automatically. Selects to turn On/Off auto OAD download.

4. Press the **EXIT** button to exit the menu.

Reset

1. Press the **MENU** button to display the main menu. Press the ◄► buttons to select **Setup** in the main menu, then press the ▼ or the **OK** button, it will highlight the first option.

2. Press the ▲▼ buttons to select **Reset** and then press the **OK** button.

3. Press the ▲▼ buttons to select Yes or No on the screen. All settings will be reset to factory defaults and the Setup menu will disappear.
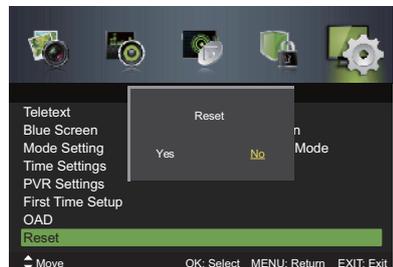

Basic Features

Let's get started

Entertainment

Using the Features via USB Port

1. Switch off the TV before connecting any USB storage device.

2. Connect your USB storage device to the USB port of your TV.

3. Press the ⏻ button on the top of the TV or ⏻ the button on the remote control to turn on your TV and your USB storage device.

4. Press the **SOURCE** button on the top of the TV or the **SOURCE** button on the remote control to display the Source List. Use the ▲▼ buttons to select USB and then press the **OK** button to confirm.

Attention:

• Some versions of portable hard disk may require more power than the TV USB socket can provide. To ensure correct operation please use power adapter for that device.

• If a USB hub is used make sure its mains adapter is connected to the mains supply as the total current consumption exceed 500mA.

• The maximum supported storage space of the hard disk is 1 TB.

• The file system only support FAT32 format.If you want to store the video streaming of a DTV programme, the transfer rate of the USB storage device must not be less than 5MB/s, otherwise the picture and sound of the programme will be affected and a warning statement will be shown on the screen. If this happens, please upgrade your USB storage device.

• The TV screen will be blank temporarily as it will take time to start up and stabilize the connected hard disk. This is normal and the starting time may vary depending on the brand and the memory size of the connected hard disk.

• Disconnect the USB storage device if it is not in use.

Viewing Photo

1. Press the **SOURCE** button on the top of the TV or the **SOURCE** button on the remote control then press the ▲▼ buttons to select the USB mode and then press the **OK** button.

2. Press the ◄ ► buttons to select **Photo** and then press the **OK** button.

3. Press the ◄ ► buttons to select your storage device and then press the **OK** button.
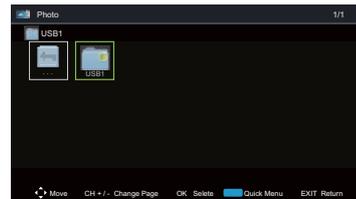

4. Press the ◄ ►▲▼ buttons to navigate in the picture folder and then press the **OK** button. If you want to select the specified photos, press the ◄ ►▲▼ buttons to select the picture file and then press the **OK** button.

⚠ File format supported: JPG.

5. Press the ►‖ or **OK** button to view.

6. Press the **OK** button or the **DISPLAY** button to display the function bar: Play / Pause / Previous / Next / Rotate / Quick Menu (Interval Time / Repeat / Slideshow Effect / Background Music).

⚠ If this folder also contains music files, you can select a music track to play at the same time you view your photos.

If you require any technical guidance or find that your product is not operating as intended, a simple solution can often be found in the **Troubleshooting** section of these instructions,

Plug replacement - UK and Ireland only

Should you need to replace the plug; the wires in the power cable are coloured in the following way:

Blue – Neutral 'N'

Brown – Live 'L'

As the colours of the wires in the power cable may not correspond with the coloured markings identifying the terminals in your plug, and proceed as follows:

The blue wire must be connected to the terminal that is marked with the letter N.

The brown wire must be connected to the terminal that is marked with the letter L.

If the power lead is damaged, it must be replaced by a qualified electrician.

Connect brown lead to 'L' - Live

Connect blue lead to 'N' - Neutral

5A Fuse
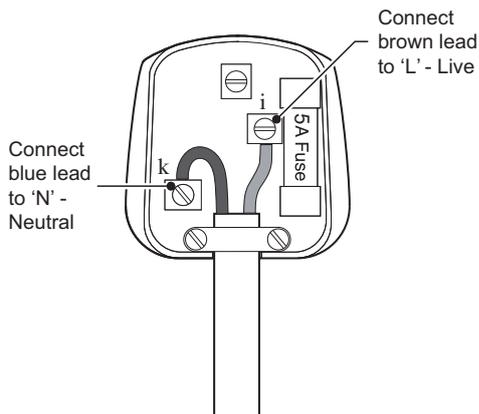

Energy label

This is called the product Fiche – the information needs to be presented in the following order, also this maybe in the form of a copy of the label, in colour or black and white – the label however must display all the information below:

• Supplier's name or trade mark
• Supplier's model product model no.
• The energy effi ciency class of the model
• The visible screen diagonal in centimetres and in inches
• The on-mode power consumption
• The annual energy consumption
• The screen resolution in physical horizontal and vertical pixel count

Trouble shooting

Image persistence - ghosting

Please note that ghosting may occur while displaying a persistent image (still or paused image). LCD TVs' image persistence may disappear after a short time. Try turning off the TV for a while. To avoid this, do not leave the screen in still picture mode for extended periods.

No power

If your TV has no power, please check the power cord plug is connect to the mains power socket.

Poor picture

1. Have you selected the correct TV system?

2. Is your TV or house aerial located too close to a non-earthed audio equipment or neon lights, etc.?

3. Mountains or high buildings can cause double pictures or ghost images. Sometimes you can improve the picture quality by changing the direction of the aerial. Is the picture or teletext unrecognisable?

4. Check if you have entered the correct frequency.

5. Please retune the channels.

6. The picture quality may degrade when two devices are connected to the TV at the same time. In such a case, disconnect one of the devices.

No picture

1. No Picture means that your TV is not receiving a transmission. Have you selected the correct button on the remote control? Try once more. Also make sure the correct input source has been selected.

2. Is the aerial connected properly?

3. Are the plugs connected tightly to the aerial socket?

4. Is the aerial cable damaged?

5. Are suitable plugs used to connect the aerial?

6. If you are in doubt, consult your dealer.

No sound

1. Has the TV been set to mute? To cancel mute, press the " 🔇 " button, or increase the volume level.

2. Sound is coming from only one speaker. Is the balance set to one extreme?

Remote control - does not operatea

Your TV no longer responds to the remote control. The batteries may be exhausted, if so you can still use the control buttons on the left side of the TV.

Input sources - can not be selected

1. If you cannot select an input source, it is possible that no device is connected.

2. Check the AV cables and connections if you have tried to connect a device.

The Disc does not play

1. No disc in the machine - Place a disc into the loader.

2. Disc is incorrectly loaded - Ensure that the DVD disc is in the loader with the label facing you when looking at the TV screen.

3. Wrong type of disc. The DVD player cannot play CD-ROMS etc..

4. The region code of the DVD disc must match the player.

Wrong OSD language

1. Select the language in the setup menu.

2. The language for the sound or subtitles on a DVD disc cannot be changed.

3. Multilingual sound and/or subtitles are not recorded on the DVD disc.

4. Try to change the sound or subtitles using DVD's title menu. Some DVD's do not allow the user to change these settings without using the disc's menu.

Definition of terms

Angle

Recorded onto some DVD discs are scenes, which have been simultaneously shot from a number of different angles (the same scene is shot from the front, from the left side, from the right side, etc.). With such discs, the ANGLE button can be used to view the scene from different angles.

Chapter Number

These numbers are recorded on DVD discs. A title is subdivided into many sections, each of which are numberd,and specific parts of video persentations can be searched quickly using these numbers.

Chapter Number

This refers to a high-density optical disc on which highquality pictures and sound have been recordedm by means of digital signals. Incorporating a new video compression technology (MPEG II) and high-density recording technology. DVD discs enables aesthetically pleasing fullmotion video to be recorded over long period of time (for instance, a whole movie can be recorded).

DVD discs have a structure consisting of two 0.6mm thin discs, which are adhered to each other. Since the thinner the disc, the higher the density at which the information can be recorded, a DVD disc has a greater capacity than a single 1.2mm thick disc. Since the two thin discs are adhered to each other, there is the potential to achieve doule-sided play sometime in the future for even longer duration play.

Subtitles

These are lines of text appearing at the bottom of the screen, which translate or transcribe the dialogue.

They are recorded on the DVD discs.

Time Number

This indicates the playtime, which has elapsed from the start of a disc or a titile. It can be used to find a specific feature to be used. Availability is determined by the disc's manufacturer.)

Title Number

These numbers are recorded on DVD discs. When a disc contains two or more movies, these movies are numbered as title 1, title 2, etc.

Track Number

These numbers are assigned to the tracks, which are recorded on Audio CDs. They enable specific tracks to be located quickly.

LPCM

LPCM stands for Pulse Code Modulation and is digital audio.

MPEG

Short for Moving Picture Experts Group. This is an international standard for compression of moving images. On some DVDs digital audio has been compressed and recorded in this format.

ALBA

Your Alba Guarantee

This product is guaranteed for twelve months from the date of original purchase. Any defect that arises due to faulty materials or workmanship will be repaired free of charge (or if applicable the product will be replaced or the purchase price refunded) where possible during this period by the dealer from who your purchased the unit.

The guarantee is subject to the following provisions:

- The guarantee does not cover accidental damage, misuse, cabinet parts, knobs or consumable items.

- The product must be correctly installed and operated in accordance with the instructions contained in the manual.

- It must be used solely for domestic purposes. The guarantee will be rendered invalid if the product is re-sold or has been damaged by inexpert repair.

- Specifications are subject to change without notice.

- Alba disclaim any liability for loss or damage arising from the breakdown of the product.

- This guarantee is in addition to and does not diminish your statutory or legal rights.

Guarantor: Argos Limited - 489 - 499 Avebury Blvd. - Milton Keynes - MK9 2NW
