#### **IMPORTANT SAFETY INSTRUCTIONS**

- Read this instruction thoroughly.
- Retain this instruction for future reference.
- Heed all warnings and cautions to prevent possible danger.
- Follow all instructions. Improper handling could cause personal injury and/or serious damage to the unit that may shorten its service time.
- Do not block any ventilation openings.
- Install the product in accordance with the manufacture's instructions.
- Before calling for the technical support or service technician, read "TROUBLESHOOTING" (63 ~ 65) to determine the symptoms when problems occur during installation or operation of the product.
- If serious problems happen (such as smoke or an abnormal odour from the unit), turn off the Main Power, unplug the Power Cord, and then, contact your local dealer immediately.

### INTRODUCTION

Thank you for purchasing the Hitachi Plasma Television. We hope that you will enjoy the great performance of this product.

This Plasma Television has been designed to meet the international standards. However, it could cause personal injuries and property damage if improperly handled. In order to prevent potential danger and obtain maximum benefit from your set, please observe the following instructions when installing, operating, and cleaning the product. Keep this manual for future reference, and record the serial number of your set in the space provided on the front cover page of this manual.

#### About This Manual

- The information in this manual is subject to change without notice.
- This manual has been created with extra care. In case that you have any comments or questions regarding this manual, please contact your local dealer or our Customer Service Centre.
- Before operating this set, please fully understand the prerequisite such as specifications or constraints of the hardware and software. We are not responsible and have no liability for any loss, damage or injury as a result of misuse.
- Reproduction, copying, use, modification, and/or transmission in whole or in part of this manual are prohibited without any prior written permission.
- All other products and company names used in this manual are trademarks or registered trademarks of their respective owners.

### **Trademark Credits**

- Licensed by BBE Sound, Inc. under USP5510752 and 5736897. BBE and BBE symbol are registered trademarks of BBE Sound, Inc. Manufactured under license from BBE Sound, Inc.
- WOW, SRS and (●) symbol are trademarks of SRS Labs, Inc. WOW technology is incorporated under license from SRS Labs, Inc.
- SD Logo is a trademark.
- HDMI, the HDMI logo and High-Definition Multimedia Interface are trademarks or registered trademarks of HDMI Licensing LLC.
- DVB is a registered trademark of the DVB Project. This logo indicates that the product is compliant with European Digital Broadcasting.
- FREEVIEW and the FREEVIEW logo are trade marks of DTV Services Ltd and are used under license. FREEVIEW Logo © DTV Services Ltd 2002. This logo indicates that the product is set up to view digital terrestrial TV.
- The "HD ready" logo is a trademark of EICTA.

Even if no special notation has been made of company or product trademarks, these trademarks have been fully respected.

### About Software

You may not alter, decompile, disassemble, decrypt, or otherwise reverse- engineer the Software installed in this product, which are prohibited by law.

#### Information for Users Applicable in European Union Countries

This symbol on the product or on its packaging means that your electrical and electronic equipment should be disposed at the end of life separately from your household wastes. There are separate collection systems for recycling in EU.

For more information, please contact the local authority or the dealer where you purchased the product.

### SAFETY PRECAUTIONS

For your safety, please read the following precautions carefully before using this product. Improper use would cause serious personal injuries and/ or damage to your property or this product.

#### Important for United Kingdom

#### **IMPORTANT FOR UNITED KINGDOM**

#### WORDING FOR CLASS I EQUIPMENT INSTRUCTION BOOKS AND LABELS

The mains lead on this equipment is supplied with a molded plug incorporating a fuse, the value of which is indicated on the pin face of the plug. Should the fuse need to be replaced, an ASTA or BSI approved BS 1362 fuse must be used of the same rating. If the fuse cover is detachable never use the plug with the cover omitted. If a replacement fuse cover is required, ensure it is of the same colour as that visible on the pin face of the plug. Fuse covers are available from your dealer.

DO NOT cut off the mains plug from this equipment. If the plug fitted is not suitable for the power points in your home or the cable is too short to reach a power point, then obtain an appropriate safety approved extension lead or consult your dealer.

Should it be necessary to change the mains plugs, this must be carried out by a competent person, preferably a qualified electrician.

If there is no alternative to cutting off the mains plug, ensure that you dispose of it immediately, having first removed the fuse, to avoid a possible shock hazard by inadvertent connection to the mains supply.

#### WARNING: THIS EQUIPMENT MUST BE EARTHED IMPORTANT The wires in the mains lead are coloured in accordance with the following code :

Green and Yellow = Earth, Blue = Neutral, Brown = Live.

As these colours may not correspond with the coloured markings identifying the terminals in your plug, proceed as follows:

The wire which is coloured GREEN and YELLOW must be connected to the terminal in the plug which is marked with the letter E or by the earth symbol ④ or coloured GREEN or GREEN and YELLOW. The wire coloured BLUE must be connected to the terminal marked with the letter N or coloured BLUE or BLACK. The wire coloured BROWN must be connected to the terminal marked with the letter L or coloured BROWN or RED.

### About the Symbols

The following are the symbols used in this manual and affixed on the unit itself. Please fully understand the meanings of the symbols before reading the instructions in this section.

<b>WARNING</b>	Never ignore the instruction. There are risks of serious injuries or possible death to the user.
<b>A</b> CAUTION	Do not ignore the instruction. There are possibilities of personal injuries and/or property damage.

Other Symbols				
	The triangle with illustration is intended to alert the users that there are possibilities of fire, explosion, or high temperature if the product is handled improperly. Each illustration within the triangle specifies the contents in detail. (The figure on the left is an example.)			
	The circle with diagonal line and illustration indicates a prohibited action (the symbol to the left indicates that disassembly is prohibited.)			
	This symbol indicates a compulsory action. The contents will be clearly indicated in an illustration or nearby (the symbol to the left indicates that the power plug should be disconnected from the power outlet).			

# **WARNING**

#### There is a risk of fire, electric shock, or serious injury.

- Unplug the power cord immediately when serious problems occur. Serious problems such as
  - Smoke, abnormal odor or noise is emitted from the product.
  - No picture, no sound or distorted picture on the display.
  - Foreign objects (such as water, metals etc.) get inside the unit.
  - Do not continue using the product under these abnormal conditions.

Turn off the Main Power, unplug the Power Cord, and contact your dealer immediately.

For your safety, never try to repair the product by yourself.

Disconnect the plug from the power outlet.

# WARNING

<b>ACAUTION</b>	
<ul> <li>Do not place your fingers into the gap at the opened front door of the unit.</li> <li>If your fingers are caught in the front door, you may be injured.</li> <li>Do not allow children to touch the front door or play near it.</li> </ul>	0
Do not place the unit at a dusty place. It could cause malfunction.	0
<ul> <li>Do not cover or block any ventilation holes on the product. The unit would overheat, and it could cause fire or damage the product which may shorten its service life.</li> <li>Install the product in accordance with the instructions in this manual.</li> <li>Do not place the unit with ventilation side down.</li> <li>Do not install the unit on the carpet or bedclothes.</li> <li>Do not cover the unit with table cloth etc.</li> </ul>	
<ul> <li>Be sure to ground the earth cable correctly.</li> <li>Especially when you use Power Cord adapter, be sure to connect the earth cable to the ground terminal. Incorrect connection would cause fire or electrical shock.</li> <li>For your safety, always make sure to unplug the Power Cord before connect or disconnect the earth cable .</li> </ul>	t Supply co
<ul> <li>Connection to a Cable Distribution System is to be provided through a galvanic isolator.</li> <li>Failure to do so may cause a fire.</li> </ul>	
<ul> <li>Follow the Anti-tumble measures in this manual.</li> <li>If the unit tumbles over, there is a risk of personal injury and possible death. Also, it would damage the product seriously.</li> </ul>	
<ul> <li>Do not install this product near the medical devices.</li> <li>To prevent malfunction of the medical devices, do not use this product and medical devices in the same room.</li> <li>Do not place a CRT-based television near the speakers of the Plasma Television.</li> <li>It could cause the partial discolouration or blurring of the image on a CRT-based television.</li> </ul>	<u> </u>
Please install it away from the speakers of the unit.  Disconnect all of the external connection cables and detach the anti-tumble measures before moving the unit.  It may cause fire, electrical shock, or personal injuries.	
<ul> <li>Connect the power plug securely.</li> <li>Improper connection will cause overheating and may result in fire.</li> <li>Do not touch the blades of the plug whilst connecting it to the wall socket. It could cause electrical shock.</li> <li>If the plug is not fitted for the wall socket, contact your dealer for replacement.</li> </ul>	
<ul> <li>Do not handle the Power Cord with wet hands.</li> <li>It could result in electrical shock.</li> </ul>	
<ul> <li>Do not pull the cord when you unplug the Power Cord.</li> <li>It may damage the cord and could result in fire or electrical shock.</li> <li>Hold the plug when disconnecting it.</li> </ul>	Ő
Unplug the Power Cord when you do not intend to use the product for long periods of time.	

### **SAFETY PRECAUTIONS (continued)**

# **CAUTION**

#### Adjust the headphone volume properly.

• Excessive sound pressure from headphones might cause hearing loss.

#### PRECAUTIONS Do not install areas where it will be subjected to high temperatures. It could damage the cabinet or parts of the product. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus that produce heat. • Keep the unit out of direct sunlight. It could increase the temperature of the unit and cause malfunction. Viewing Advice • The lighting of the environment in which the product is used should be appropriate. Too bright or dark environments are not good for vour eves. · Take time to relax your eyes occasionally. • When you use this product, view from a distance equal to 3 to 7 times the height of the screen. This is the best viewing distance in order to protect your eyes against eyestrain. • Adjust the volume to an appropriate level, especially during the night. When transporting this product: . When the product needs to be transported due to moving or repair, use the carton box and buffer material that came with this product Do not transport this product on its side. It could damage the panel glass or degrade the phosphors of the panel. Keep radio away from this unit whilst in use. This unit is designed to meet the international EMI standards due to prevent radio interference. However, the unit may generate noise in the radio. • If the noise is heard on radio, please try the following actions. Adjust the direction of the radio antenna in order not to receive the interference from the unit. · Keep the radio away from the unit. Use coaxial cable for the antenna. About infrared communication devices: The infrared communication devices such as cordless microphones or cordless headphones may not operate properly around the unit. It is because of communication failure. Please note that this is not malfunction. When you dispose of this product at the end of its life, follow the regulations in your residential area. • For more information, contact the local authority or the dealer where you purchased the product.

### **Cleaning and Maintenance**

#### Please make sure to unplug the power cord before cleaning the unit.

#### How to clean the plasma screen panel of the unit.

- The panel surface is specially-coated to reduce the reflection and cut infrared radiation; thus, wipe the panel with a lint-free and dry cloth in order to prevent damage to the coating.
- Do not use a chemical cloth or cleaner. Depending on the ingredients, it may cause discolouration and damage on the coating.
- Do not wipe with a hard cloth or rub hard. It may hurt the coating.
- In case of the greasy dirt such as fingerprint, wipe with a lint-free cloth moistened by a diluted neutral detergent solution, and then wipe with a soft and dry cloth.
- Do not use a spray cleaner. It could remove the coating or cause malfunction by entering inside of the unit.

ENGLISH

### ABOUT PLASMA DISPLAY PANEL

#### **Image Retention of Plasma Display Panel**

The plasma display panel has one of characteristics that can result in panel image retention depending on how the plasma display is used. The following are the common reasons for and effective preventive measures against the image retention.

#### **Characteristics of Image Retention**

- Image retention is caused by partial degrading the phosphors due to the partial display of character and figure.
- For example, when the characters as shown in Fig. A are displayed continuously for a long period of time, only the phosphors (Red/Green/Blue) displaying the characters are degraded. Consequently, when displaying an all white image on the entire screen as shown in Fig. a, the marks remaining by the characters will show colour differences; therefore, note that it is not burnt remains of the phosphors.

- The degree of image retention is proportional to the Brightness and Display Time for the characters and/or figures.
- The brighter the characters and figure, the more phosphor is degraded. As shown in Fig. B, in case of displaying images that have different brightness each for a long time, Fig. b shows that the brighter the image, the more it tends to remain.
- \* The illustrations are images to explain image retention. The actual manners on the image retention vary depending on such conditions as operation time and brightness.

#### **Method to Reduce Image Retention**

• Use "Screen Wipe" or "Luminance Manager" functions on the display, which are available from Configuration menu. (Refer to 30, 31.)

After displaying certain images such as a still image for a long time, "Screen Wipe" can be used to reduce the image retention by displaying a completely white screen for about 1~2 hours. In addition, "Luminance Manager" function works when displaying images such as TV station logos or clock displays in the corners of the screen. • Use in combination with moving images.

Since the entire screen has relatively even degradation of the phosphor in moving images, it can reduce the partial image retention. We recommend to use together with such moving images as DVD.

- Please be careful that leaving the images in 2-picture mode for a long period of time can cause image retention.
- Some television broadcasts contain images of which cut the left/right or top/bottom, and in which broadcast station identity or a clock is displayed for a long time at the same position. Please be aware that it may cause the image retention.

#### **Common Characteristics of Plasma Display Panels**

The following are the common characteristics of Plasma Display Panel due to structural reasons. Please note that they are not malfunctions.

#### Residual image

When a still image or menu is displayed on the screen for a short time (about a minute) and then switches to another image, it may leave an "after-image" on the screen. The residual image will disappear on its own.

The residual image will disappear of its o

#### Surface on Panel

The plasma panel displays images by generating discharges internally. This could raise the temperature of the display surface. In addition, do not allow any forceful impact to the surface of panel because plasma panel is fine-processing glass even though the panel strengthens by the front filter made of tempered glass.

#### • Defective Pixels on Panel

The plasma display panel is manufactured with high-precision technology. However, there might be some pixels that do not light, are brighter than the others, or in different colours, etc.

### **OVERVIEW**

- Large-screen and high-definition plasma panel.
- Improved Digital signal processor.
- High quality sound with deeper, richer and dynamic bass tones.
- Various functions as Digital Terrestrial Television (More TV channels, EPG, etc).
- 3 Scart terminals installed.
- Accept more digital input devices with 2 HDMI terminals located on front and rear.
- Great diversity of connecting terminals to cover wide range of audio-visual equipments.
- Photo Input function with Slide Show.
- SD Card Slot installed.
- Optical Audio Out installed.
- Easy-to-use On-Screen Display system operating with Remote control.
- Low power consumption with Power Saving feature.
- Motorized Power Swivel feature.
- Provided 2000 pages for Teletext.

### SUPPLIED ACCESSORIES

Check the supplied accessories before installation. In case of missing or damaged, please contact the dealer immediately.

#### **COMPONENT NAMES**

#### **Main Unit**

#### **Front Panel**

- (5) Main Power Switch (on the bottom surface)
- (6) Control Panel and Front Input (see below for

**Rear Panel** (1) Terminal Board (External Device Connection) 42" models 50" models (2) Power Cord Socket (3) Handgrips Please refer to **14** ~ **20** for the detailed information 3 for the connections.

#### **Control Panel (including front input)**

### **CAUTION**

• Do not place your fingers into the gap at the opened door. If your fingers are caught in the front door, you may be injured.

A Push the bottom center of the front door to unlock. B Lift it up from the underside of the door.

#### 42" models

- (1) Front Input
- (2) Menu/Return button
- (3) Input Select/OK button
- ④ Volume Down/◀button
- (5) Volume Up/▶ button
- ⑥ Channel Down/▼button
- (7) Channel Up/▲button
- (8) Sub Power button

### **COMPONENT NAMES (Continued)**

#### **Remote Control**

#### NOTE

The function indicated by [ ] are only for Teletext mode. Refer to  $\boxed{48}$ ,  $\boxed{49}$ .

#### 1) Sub Power 21

- Press these buttons to select function mode. The selected button blinks once. Normally, select "TV/DTT".
- Brogramme Select/Input Mode [Page Select]
   23, 25, 48, 49
   Press these buttons to select a TV programme directly.

You can also use these buttons when changing the Input mode.

 (4) Freeze/Multi Mode [Hold] (48), (52), (53) Press this button to change the picture to freeze mode. Press it again to return to normal picture. In addition, during multi-picture mode, this changes the type of 2-Picture mode. (Also, it holds the page in teletext mode.)
 (5) CHI/II (47), (60)

This is exclusively for TV audio A2/NICAM mode. Also, press this button to select Audio Language in DTT mode.

- 6 Volume Up/Down 24
- Colour [Colour] 48, 49
   These coloured buttons are for teletext and other functions as detailed later in this book.
- (8) TV/Text [TV⇔Text] 48, 49 This switches between the TV mode and the Teletext mode.
- 9 [Cancel] 48
- 10 Menu 26 ~ 34
  - Press this button to select Main Menu.
- (1) Cursor [Item Select] [49]
- 12 OK 13 Function Menu 26, 35 ~ 39
  - Press this button to select Function Menu.
- (1) DVD Control 62 You can use these buttons whilst operating the selected brand of DVD player.
- (5) Audio Mode 34 Audio mode can be changed each time pressed in the following sequence. Movie→Music→ Speech→Favourite
- 16 Recall 25
- Press this button to show the input signal status.
  - Picture mode can be changed each time pressed in the following sequence. Dynamic→Natural→Cinema
- (B) Swivel (with Desktop Stand) 59 This function is to rotate TV. Select the degree of rotation with cursor key.
- Input Select 25You can use this to change the input mode.
- 20 Multi Picture [Text TV+Text] 48, 52 Press this button to change the picture to multi-picture mode. Press it again to return to normal picture.
- 2) Channel Up/Down [Page Select] 23, 48
- 22 Mute 24
- 23 [Reveal] 48
- DVB Subtitle (Language) [Subtitle] 47 ~ 49 Press this button to set On DVB subtitle and select the language in DTT mode.
- 25 Guide [Index] 43, 48
- It displays EPG screen in DTT mode.
- 26 Return
- You can use this to return to the previous menu. Photo Input 54 ~ 58

This button is to display and control the pictures from digital still camera, USB card reader, or SD (MMC) card.
(28) Zoom (50), (51)

Press this button to change picture size.

### PREPARATION

### **Remote Control Batteries Installation**

Projecting

parts

This remote control operates on 2 "AA" batteries.

#### **1. Open the battery compartment cover**

• Slide open the battery compartment cover on the backside in the direction of an arrow, and remove the cover.

#### 2. Install the batteries

 Install 2 "AA" batteries (included) making sure the polarities match the indication inside the compartment.

#### 3. Close the battery compartment cover

• Make sure of the positions to fit the projecting parts in the holes, and slide the compartment cover in the direction of an arrow till it clicks shut.

# Use the remote control within about 5m from front of the unit's remote-control sensor and within 30 degrees on both sides.

Handling the Remote Control

### **CAUTION**

# It could cause corrosion or battery leakage and may result in physical injury and/or property damage including fire.

- Never mix used and new batteries in the device.
- Replace all the batteries in a device at the same time.
- Remove the batteries if the remote control is not going to be used for an extended period of time.

### To avoid possible failure, read the following instructions and handle the remote control properly.

- Do not drop or cause impact to the remote control.
- Do not spill water or any liquid on the remote control.
- Do not place the remote control on a wet object.
- Do not place the remote control under the direct sunlight or near sources of excessive heat.

### Caution When Moving the Main Unit

As this product is heavy, whenever it is moved, two people are required to transport it safely.

When transferring the unit, hold the unit by using the handgrips at the backside of the panel. (See the figure below for details.)

### PREPARATION (continued)

#### **Safety Precaution on Main Unit Installation**

#### Read SAFETY PRECAUTIONS ( $\underline{4}$ to $\underline{7}$ ) carefully besides this page.

\*The Desktop Stand has been used for the illustration in this manual.

When installing the main unit, be sure to use the specified mount units in order to obtain maximum performance and maintain the safety.

We assume no responsibility or liability for personal injuries or property damages caused by use of other mount units or improper installation.

As for the installation instruction, please read each user's manual of the mount units: for Wall Mounting and <u>Ceiling Mounting.</u>

In case of Wall or Ceiling Mounting, please ask your local dealer to arrange professional installation. Never attempt to install it by yourself. It could cause injuries or damages.

Please leave adequate space around this unit in order to avoid increasing the internal temperature and keep safety whilst using swivel function.

Make sure not to block any ventilation holes.

Do not install the unit in small space such as inside a cabinet or the box.

Leave more than 10cm of clearance from each side of unit and 30cm from the top of unit to wall.

- \*1 Without Swivel function: Leave at least 10cm of clearance behind rear unit.
- \*2 With Swivel function: Leave the adequate space to obtain the maximum performance of Swivel Function. (42" models: 31cm, 50" models: 32cm)
  Refer to 59 for Swivel Function.

Install in a stable place and implement safety measure against overturning.

#### Securing to a wall or pillar

Using a commercially available cord, chain, and clamp, secure the set to a wall or pillar.

#### **Securing to ceiling**

Using a commercially available cord, chain, and clamp, secure the set to a ceiling.

#### NOTE

• For more information regarding the mounting of the unit, please contact your dealer.

- Loosen a cord or chain enough whilst operating power swivel to avoid physical injury.
- Please install the unit in a sensible location where it does not expose anyone to the danger of knocking into the unit, causing injury to themselves or the Plasma TV.

### CONNECTION

#### **Terminal Positions**

### **Connecting Procedure**

#### Rear

- 1 Power Cord Socket
- 2 Aerial Socket
- ③ AV1
- ④ AV2
- ⑤ AV3
- ⑥ AV4
- ⑦ Monitor Out
- (8) Service use only
- (9) Service use only
- 1 Power Swivel Terminal (See 59)
- (1) Optical Out (Digital Audio)
- 12 HDMI 2
- (13) Mini stereo for Audio
- (1) Common interface slot

#### Front

- (15) AV5
- (i) Headphone terminal
- 17 HDMI 1
- (18) SD Memory Card slot
- 19 Photo Input terminal

This unit is ready for various kinds of connections. Make a connection in the following steps. Be sure to turn off the Main Power first when connecting external equipments.

- 1. Connect Power Cord to the rear panel.
- 2. Connect Aerial Lead.
- 3. Connect your external equipments to the unit if any.
- **4.** Connect the Power Plug to the Wall Socket.

#### **1. Connecting Power Cord to the Rear Panel**

Connect Power Cord to the unit.

\*Make sure not to connect the Power Plug to the Wall Socket until all connections are completed.

#### 2. Connecting Aerial Lead.

There are two ways to connect Aerial Lead.

- When you do not have any other external equipment: Connect the Aerial Lead directly into the Socket at rear panel.
- When you have one or more external devices to connect: 1. Use RF cable to connect between each equipment and aerial.
  - 2. Connect the Aerial Lead to the Aerial Input socket of an external device such as a VCR.

- 3. Connect the RF cable from the equipment 'Out' to the other equipment 'In.'
- 4. Then, connect from the equipment 'Out' to "ANT" on the plasma screen Socket.

#### NOTE

• If analogue and digital broadcast signals are provided from separate aerials, please use a mixer and RF cable to connect aerial socket in order to receive both signals.

#### Precautions when connecting the aerial

- Please use a coaxial cable which is free from interference to connect the aerial. Avoid using a parallel flat feeder wire as interference may occur, causing reception to be unstable and stripe noise to appear on the screen.
- Avoid using indoor aerial as this may be affected by interference. Please use CATV net or outdoor aerial.
- If noise appears in the picture of VHF-Low band channel, please use a double-shielded cable (not provided) for RF LEADS to reduce the noise.

### **Connecting Procedure (continued)**

#### **3. Connecting to External Equipment**

#### • Terminals on Rear

**AV1** can be connected to the equipment with Composite/S-Video/Audio input, and Composite/Audio output. The output signal can support not only Analogue but also Digital Terrestrial TV signals.

P If STB is connected to AV1 in France, it descrambles some of the Pay TV images by resending the signal again (In/Out).

#### **OUTPUT** Composite/Audio

When you are watching either TV or DTT broadcasting from AV1, you can switch to the other by setting
 "Scart Output" in Initial Setup menu. For example, whilst you are watching TV, it is possible to record the DTT programme. Refer to 27 about "Scart Output" in Initial Setup menu.

AV2 and 3 can be connected to the equipment with Composite/RGB/Audio input, and Composite/Audio output.

#### **Connecting Procedure (continued)**

**AV4** can be connected to the equipment with either Component or Composite output. Depending on whether the Y/ VIDEO input of your selected equipment is Y signal or Video signal, it will automatically be detected as Component or Composite. When using as Composite, do not insert the jacks into  $P_B$  or  $P_R$ .

 $\ensuremath{\mathbb{P}}$  If your external device has a Component terminal, COMPONENT connection is recommended for higher quality picture.

Monitor Out can be used to display same image as main unit on another monitor.

When this output terminal is connected to an external monitor with a 75 Ohm terminal, the same image from composite(AV1~5), or RF signal can be displayed to the external monitor.

#### NOTE

• Video output is not available from component or HDMI input.

**Optical Out (Digital Audio)** terminal can be connected to an audio amplifier with Optical Audio input.

#### NOTE

• Optical Out (Digital Audio) accepts PCM only.

### Connecting Procedure (continued)

**HDMI 2** terminal can be connected to the devices with HDMI output. If the external device has DVI output, this can be available with HDMI-DVI cable. In case of using the HDMI-DVI cable, connect to audio terminal besides DVI output terminal. Refer to **18** about HDMI1 terminal on front.

### Information

HDMI(High Definition Multimedia Interface) is next-generation multimedia I/O interface. Only one cable is used to transmit all video/audio/control signals, which creates easy connection.

Moreover, those digital signals can produce high quality data without any degradation.

You are provided with two HDMI terminals on front and rear.

P If your external device has a HDMI terminal, HDMI connection is recommended for higher quality picture and sound.

#### NOTE

When the signal format is 1080p, use a cable of less than 5 meters.

Common Interface Slot allows you to receive Pay TV service with detachable modules.

Before inserting the module, make sure to turn off the main power. And then insert the module through the clamp all the way into the slot. Make sure to insert it correctly. Refer to **36** for the details.

#### **Connecting Procedure (continued)**

#### Terminals on Front

Since the following terminals are located on the front, it is very convenient to connect an extra device on a temporary basis after completing the connections on the rear panel. (The illustrations of the terminals are 50" models.)

AV5 can be connected to the equipment with S-video output and composite output.

(a) If your external device has S-video terminal, S-VIDEO connection is recommended for higher quality picture.

#### NOTE

If both S-video and video input terminals of AV5 are connected at the same time, S-video will have its priority.

#### Headphone

In case of setting "Headphone Select" in Audio Menu to "H.Phone only", the audio from the speaker will be muted when connecting the headphone to this terminal. Refer to 34.

**HDMI 1** terminal can be connected to the devices with HDMI output. If the external device has DVI output, this can be available with HDMI-DVI cable. In case of using the HDMI-DVI cable, connect to audio terminal on the rear besides DVI output terminal. Refer to **17** for details about HDMI2 terminal on the rear.

NOTE

When the signal format is 1080p, use a cable of less than 5 meters.

### **Connecting Procedure (continued)**

**Photo Input** terminal can be connected to a digital still camera or USB card reader with USB cable. For details, refer to the Photo Input function shown on  $54 \sim 58$ .

#### NOTE

This photo input terminal does not support general USB devices such as USB memory. Please do not connect with those devices.

**SD Memory Card slot** can be used for the Photo Input function with the SD (or MMC) card memory containing pictures. For details, refer to the Photo Input function shown on 54 - 58.

SD MEMORY CARD (	PUSH-EJECT
SI	D Card / MMC

#### **Connecting Procedure (continued)**

#### 4. Connecting the plug into the wall socket

Connect the Power Cord after completing all other connections. (The type of plug is different from this drawing for some countries.)

### **CAUTION**

- Use only the Power Cord provided.
- Do not use a power supply voltage other than that indicated (AC220-240V, 50Hz). It may cause fire or electric shock.
- For the plasma television, a three-core power cord with a ground terminal is used for efficiency protection. Always be sure to connect the Power Cord to a grounded outlet and make sure that the cord is properly grounded. If you use a power source converter plug, use an outlet with a ground terminal and screw down the ground line.
- Connection to a Cable Distribution System is to be provided through a galvanic isolator.
- Ensure that both ends of power cord are easily accessible.
- If you have to change the power cord, please use the certified power cord that meets your region's safety standard.

### Information

#### How to secure the cables.

After connecting all of the cables to the terminals, secure them with the clamps. When you secure the cables, please be careful not to tighten too much.

### **BASIC OPERATION**

#### Power On/Off

Now, turn On the main power to the unit. Make sure that the Power Cord is plugged into the wall socket.

#### • To turn On the power of the unit:

- 1. Press the Main Power switch on the unit.
  - The Indicating Lamp will illuminates in Red (Standby mode).
- **2.** Press **Sub Power button** either on the control panel or on the remote control. • The colour of the Indicating Lamp turns into **Blue**, and the image will display on the screen.

#### • To turn Off the power of the unit:

- 1. Press Sub Power button either on the control panel or on the remote control.
  - The image disappears from the screen and the Indicating Lamp turns into Red (Standby mode).
- 2. Press Main Power switch to completely turn Off the power of the unit.

Sub Power button

Indicating Lamp Status Power Status		Power Switch Status	View Timer Status
Off	Off	Main power $\rightarrow$ Off	
Red Standby mode		Main power $\rightarrow$ On Sub power $\rightarrow$ Off	_
Blue*1 On		Main power $\rightarrow$ On Sub power $\rightarrow$ On	_
Pulsing Blue         Power Save mode*2		Main power $\rightarrow$ On Sub power $\rightarrow$ On	_
Orange <sup>*3</sup> —		_	Whilst TV has View Timer set up.
Green —		_	Whilst operating a programme which has set up View Timer.

#### The Indicating Lamp Status Check

\*1 After turning on, the indicating lamp pulses for an instant and then starts lighting. Also, the indicating lamp blinks whilst using remote control.

In case you do not want it to pulse/blink, select "Off" in "LED Mode" from Configuration menu. Refer to 30 for the details.

- \*2 About Power Save mode, see "Power Save Mode" and "When Following Messages Appear on the Screen" on 61 and **63** for details.
- \*3 The indicating lamp blinks in orange if the View Timer setting does not have time information.

#### NOTE

- If the image does not appear on the screen at all, or have any problem, see TROUBLESHOOTING on 63 ~ 65. It may help you to solve the problems.
- After turning On, it takes a few seconds until TV is started up. If select "On" in "Quick Start Options" from **Configuration** menu, you can shorten the processing time. Refer to **30**.
- You can turn ON the power only by pressing the **Sub Power** button during the Standby mode.
- Do not switch the power On/Off repeatedly in a short period of time. It could cause malfunction.
- To avoid sudden surges of electricity when the power comes back on, turn Off the main power of the unit before you leave if there is a power cut during use of the unit. 21

### **Easy Setup**

When you turn ON the TV for the first time, your TV automatically leads to the settings of "Language," "Target," and "Country (TV and DTT)." (Also, refer to the attached Quick Guide.)

- The first screen appeared will ask you to choose the language of your TV's display.
- **2.** Using ( button, select language you preferred from the list and press ( k) button.
- **3.** Then, using ↔ button, select the target for auto scan. TV → DTT → TV&DTT →
- **4.** If you choose "**TV**" or "**TV&DTT**" in "**Target**," select the country for analogue scan with ↔ button.
- 5. If you choose "DTT" or "TV&DTT" in "Target," select the country for digital scan with ( ) button.

For \*\*\*T01U and TP01U model:

Please note that the country of digital scan is automatically set as "**United Kingdom**," which is shown as grey (unavailable to select the other countries).

**6.** The auto tuning screen appears, and your TV will now search channels through the frequencies storing them in order.

<Example: \*\*\*T01U>

NOTE

• If you want to change the setting after completing this easy setup, press button and select "Easy Setup" from "Initial Setup" menu in order to set up individually. (See 27.)

### **BASIC OPERATION (continued)**

### **Channel Selections**

There are 4 ways to select the channels: stepping through the channel, selecting by number, selecting from the on-screen channel list, and using the Electronic Programme Guide (EPG).

### Stepping through the Channel

Press button on the remote control or Channel Up/Down button on the control panel to switch the next or previous channel on the list. Information banner is displayed every time channel is switched. Refer to **46** about the information banner.

#### Selecting from the On-screen Channel List

- 1. Press () button on the remote control.
- 2. Select "Channel Manager" from Main Menu to show channel list.
- 3. Use  $(\clubsuit)$  button to move through the list, and |P|button to display next or previous page.
- 4. Press (ok) button to select the channel, along with a quarter screen image of the selected channel.
- 5. Press () button again (twice if necessary) to return the normal full screen.

Enter the number based on its channel list by the numeric buttons on the remote control. Skip channels can be selected, too. A small box appears in the upper right corner of the screen to show entered number. Channel is switched along with the information banner. If the entered number is not valid for one of the setup channels, it automatically selects the closest channel.

#### Using the Electronic Programme Guide (EPG) [DTT mode only]

Press button or select "Guide" in Function menu to access EPG screen. The EPG screen displays a list of the stored channels (10 channels per page) along with the description of the programme being broadcast.

To change channels, use  $(\clubsuit)$  and  $\left| \begin{array}{c} \bullet \\ \bullet \end{array} \right|$  button and then  $(\circ \kappa)$  button.

Refer to [43] regarding Electronic Programme Guide for details.

#### NOTE >

Please note that DTT menu and image from MHEG Digital Teletext (without picture) cannot be supported at the same time. (Audio and picture are available.)

The followings are the examples.

- If the quarter images on EPG or Channel List screen is from MHEG Digital Teletext, those images cannot be displayed. • If you try to display the menu whilst displaying MHEG Digital Teletext (without picture), the teletext screen
- becomes unavailable.

### **BASIC OPERATION (continued)**

#### Volume UP/DOWN

- 1. To increase the sound volume, press **button** on the remote control, or **Volume Up** button on the control panel.
  - The Volume Indicator value on the screen will shift right.
- **2.** To decrease the sound volume, press **J** button on the remote control or **Volume Down** button on the control panel.
  - The Volume Indicator value on the screen will shift left.

### Mute

- **1.** To mute the sound, press  $\mathbf{x}$  button on the remote control.
  - The sound of the unit is temporarily turned Off.
  - The colour of the Volume Indicator will turn into **grey** whilst muting the volume.
- **2.** To bring the sound back, press X button again, or Volume Up button on either remote control or the control panel.
  - The colour of the Volume Indicator will turn back to white.

#### NOTE

• You can decrease the volume by pressing button whilst the sound is muted.

Volume Indicator

### **BASIC OPERATION (continued)**

#### Input Switching to DTT/TV/AV1~5/HDMI1~2

There are several ways to change the input mode as mentioned below. Please select your preferred way.

- You can select DTT and TV mode directly.
   Press button on the remote control. Each time the button is pressed, the mode is switched between DTT and TV mode.
- Display Input Switching Banner to select the input mode.
  - **1.** Press button on the remote control or **Input Select** button on the control panel to display Input Switching Banner.
- 2. Select the input mode.
- Each time 🗊 button on the remote control or **Input Select** button on the control panel is pressed, the screen displays the corresponding mode by following order.

Also, you can change the input mode back and forth by using (\*) button on the remote control or **Volume Up/Down** button on the control panel.

● Input Mode buttons (AV1~AV5 and HDMI 1~2 mode) After pressing ⊕ button, press the desired **Input Mode** button on the remote control.

### Input Signal Screen Display

The input signal status can be displayed on the screen by pressing the  $\textcircled{}_{\textcircled{}}$  button of the remote control.

- After programme the input signal screen in DTT mode, you can show the information banner by pressing button again. Refer to 46 about the information banner.
- The display will go out in approximately 6 seconds.

\*1 If the programme provides audio / subtitle (DVB) service for the visually impaired or the hearing impaired, the icon 🕄 or 🔊 will appear. \*2 Only when time signal is received from DTT broadcasting, the current time is displayed.

### MENU OPERATION

### How to use the On-Screen Display (OSD) system

With the On-Screen Display system, you can access the various kinds of the features and functions in this product. There are two setting menus of Main Menu and Function Menu. As usage, press button to show Main Menu or button to show Function Menu.

### Basic Operation MENU FUNCTION

- 1. Press () / ) button on the remote control, or **Main Menu** button on the control panel of the unit. The **Main / Function Menu** is displayed on the screen as shown on the right.
- **2.** To select the item, press (\*) button. The selected item will be highlighted in Orange.
- Press <sup>()</sup>→ button to set your selection. The selected menu page will be displayed on the screen.
- **4.** Use ( button to choose the item on the MENU page.

Press (ok) button to set your selection.

5. Use (••) button to adjust the item values or choose options.

Press (ok) button to set your selection.

RETURN

**6.** To exit from the menu, press 🕥 button (several times if necessary).

#### NOTE

- The OSD menu screen will be closed automatically when no operation has been made for about one minute.
- If the item in menu is shown in grey, it means that it cannot be selected or adjusted.
- The menu items indicated by \* on  $27 \sim 34$  can be automatically stored.

	Favourite	preference, select "Favourite".
Treble*	$0 \simeq 100\%$	Adjust the Treble.
Bass*	$0 \sim 100\%$	Adjust the Bass.
Balance*	L30 $\sim$ R30	Adjust the balance of the sound from bottom right and left speakers.
SRS*		This system gives you the dynamic 3D sound. Select it depending on your preference.
TruBass* Off High		TruBass gives you the enhanced bass sound. Select it depending on your preference.
BBE*	Off Low High	BBE High Definition Sound restores clarity and presence for better speech intelligibility and musical realism. Select it depending on your preference.
FOCUS*	Off Low High	This gives you more natural and realistic sound by shifting up audio image (sound image). By making clear outline of sound, it gets easier to hear speaking voice such as news.
Perfect Volume* Off		It will automatically adjust the volume to its average level each time you change the channel.
Internal Speaker*	Off	This needs to be switched to Off when you want to listen to audio from external equipment.
	On	It is normally set to On when you operate the set using the built in speakers.
Reset		Each item on this menu screen can be restored to the original factory settings by pressing $\bigcirc K$ button.
Headphone Volume* 0 ~ 60		It allows you to adjust the volume of the headphone.
Haadabaaa Salaatt	TV+H.Phone	You can hear the sound from both speakers and headphone.
	H.Phone only	You will hear the sound only from headphone.
Reset		Each item on this menu screen can be restored to the original factory settings by pressing $\bigcirc K$ button.

### FUNCTION MENU OPERATION

### Basic Mode

This can access to various kinds of useful features, such as EPG and timers. If you press button on remote control at normal mode, the following menu appears.

Function Menu	
∽Favourite	
Guide	
Programme Search	
Timers	
Lock & Rating	
Common Interface	
Picture Mode	
Audio Mode	
200m	
Stop Timer Event	
$\odot \otimes \bigcirc$	

Selected Items		•	Setup hint
Favourite	Favourite		This gives access to Favourites page which allows you to set a channel as Favourite. See <b>46</b> to set as favourite channels.
Guide			This can access to EPG OSD. The EPG screen displays a list of the stored channels along with information on what programme are being broadcast. You can also access to EPG by pressing button on the remote control. See <b>43</b> for EPG. In case that time is not acquired from DTT broadcast, or no channel is stored in DTT channel list, this is not available. (This is available only in DTT mode.)
	Cł	nannel Category	You can search for programmes. When you select "Programme Search" and press (or button, Search Condition screen is displayed.
Programme Soarch	P	rogramme Type	button, and select the value of each items by using  button.
Search	Date		After setting the search condition, select Search. In case that time is not acquired from DTT broadcast, or no channel is stored in DTT channel list, this is not available. (This is available only in DTT mode.)
	Programme Timer		This reminds you that the desired programme is about to start even whilst you are watching another channel. This is available only if TV obtains the current time information from DTT broadcasting. See 4 for the detailed.
		Min.	
		30Min.	This function automatically sets the power to Standby
	Off Timer	60Min.	mode when the selected time period has elapsed.
		90Min.	
		120Min.	
Timers	On Timer	hm	This function automatically sets the power from standby mode to On when the specified time period has elapsed. Input the desired time within the range of 00h01m to 11h59m by using () button on the remote control.
	Date		This displays the date acquired from DTT broadcast, which is not adjustable. The date reflects on View Timer setting.
	Time		This displays the time acquired from DTT broadcast, which is not adjustable. The time reflects on View Timer setting.
	Time Offset	-3~+3	You can obtain the time information from broadcasting (if available). If the information is incorrect, this can be corrected in 1 hour steps.

#### Analogue/Digital Teletext

This teletext supports the following.

• TV mode: All models

• DTT mode: \*\*\*T01E, TP01E

#### • How to operate the Teletext

You can display the Teletext simply by pressing the remote control buttons.

#### NOTE

Select Teletext language from Configuration menu shown on 31.

Operation	Press
To activate Teletext mode. To exit from the Teletext mode.	[TV⇔Text]
To move to the next or previous page.	(Page Select]
To jump to the indicated page. (Time-out is 4 seconds in DTT mode.)	0 ~ 9 [Page Select]
To split the screen into two and watch both Teletext information and actual broadcast at the same time. Press again to watch Teletext on a single screen.	[Text⇔TV+Text]
To display Index page.	(≣i [Index]
<ul> <li>To access Teletext Subtitle service (if the channel has the Teletext Subtitle service broadcasting).</li> <li>In TV mode, press this button directly.</li> <li>In DTT mode, press this button after pressing button (to activate Teletext mode first). Please note that pressing this button directly in DTT mode (before activating Teletext mode) leads to DVB subtitle.</li> </ul>	[Subtitle]
To display Hidden text. ex. The answers of the Quiz or the Game page. Press again to close the revealed answer.	[Reveal]
To return to actual broadcast temporarily whilst searching for the Teletext page you request. When the search is done, the designated page # will be displayed on the upper left of the screen. Press again to return to Teletext page.	(Cancel]
To access the link pages which are displayed at the bottom of the page. (Select the buttons corresponding to the colours of the letters on screen.)	[Colour]
To hold the text picture.	[Hold]

Page Number

Link pages

12:34:56

#### Information

• Each time the **D** button is pressed, the screen will be switched from double screen to signal screen.

- Some Teletext pages do not display Link Pages at the bottom of the screen. Press 🗐 button to display them.
- Some Teletext pages display Sub Pages number at the bottom of the screen (under Link Pages). You can select the sub page by pressing ( ) button on the remote control.

### MHEG Digital Teletext [DTT mode only]

#### This teletext is for \*\*\*T01U and TP01U model in DTT mode.

MHEG Digital Teletext can provide various information with text on the screen.

- To access/exit from Teletext screen, press button or **Colour** button depending on the programme being broadcast. Please follow the navigation on the screen when using **Colour** button.
- MHEG Digital teletext and subtitles (DVB) cannot be activated at the same time.

Subtitle (DVB) should be turned off to activate teletext.

• If you try to activate teletext during subtitles (DVB) ON, the dialogue box appears to ask you to turn subtitles off as shown.

Operation	Press	
This switches the receiver between the TV mode and TELETEXT mode.	(TV⇔TEXT)	
Each of these buttons selects a link page displayed at the lower part of the screen.	[Colour]	
This selects items on the screen.	[Item Select]	
This jumps to the indicated page if any navigation on the screen.	0 ~ 9 [Page Select]	

NOTE

When you are asked to press SELECT in the menu of digital teletext, press (or button on the remote control.

#### Size Switching

Each time () button of the remote control is pressed (or press ) and then () button), the screen display size is switched in sequence, and the status will be displayed at the bottom of the screen.

NOTE

• The screen saver function does not work at Full 2 mode.

#### Information

Aspect ratio represents horizontal: vertical ratio on screen.

#### Position Adjustment

Vertical picture position can be adjusted for Panoramic 1, Zoom, C14:9L, and 14:9 Zoom mode as follows.

- 1. Press (#) button on the remote control to select position adjustable size.
- 2. The information display will appear. It includes information of position if available.
- 3. Adjust the position by 🗘 button.

Adjustment range of each picture size are as shown below.

 Panoramic 1:
 -12 to+12

 Zoom:
 -31 to+ 31

 C14:9L and 14:9 Zoom:
 -16 to+ 16

### **CAUTION**

#### Using a wide-screen television

- This television has a screen mode selection feature. If an incompatible screen mode is selected to play certain software, such as a TV programme, the image would appear different from the original. Take this into consideration when making screen mode choices.
- Use of the wide feature displaying enlarged pictures in coffee shops, hotel and other establishments for commercial or public viewing purposes could infringe on the copyright holder's right protected by Copyright Law.
- When a normal 4:3 image (not wide screen) is displayed over the entire screen in the Panoramic mode, the peripheral image may disappear partly and/or appear distorted in some cases. Use 4:3 mode to view the image reflecting original intention.

#### Multi Picture Mode

With this feature, you can watch different channels simultaneously on one screen. There are two types (Split and PinP) in 2-Picture mode.

- To activate Multi Picture mode, press button on the remote control.
   Audio is output from the selected picture with a yellow frame. You can switch the Input modes (DTT, TV, AV1~5, and HDMI1~2) or change channels only on the side with a yellow frame.
- **2.** To select the active picture, press ( button.
  - The yellow frame is shifted from A to B back-and-forth.
- **3.** To change the channel on the selected picture, press button.
- **4.** To change the input mode on the selected picture, press button on the remote control.

#### NOTE

- In DTT or TV mode, you cannot select the same input channels on both sides simultaneously.
- You cannot select the same AV input on both sides simultaneously.
- You cannot select HDMI input on both sides.
- **5.** Only when the 1080i or 1080p signal is received on the Main-screen (left screen), PinP mode is available.

To switch to PinP mode, press 😁 button. Each time 😁 button is pressed, the picture mode is changed as below.

2-Picture (Split) ←→ 2-Picture (PinP)

To select the active picture, press ( ) button.

- When the selected picture is the small screen (Sub-screen) in PinP mode, the frame of the sub-screen is shown in yellow.
- When the selected picture is the large screen (Main-screen) in PinP mode, there is no yellow frame shown on Main-screen.

To change the position of the sub-screen in PinP mode, press () button.

- The position is changed as shown in the figure on the right.
- 6. To exit from the Multi Picture mode, press or button. Next time you press button to activate the Multi Picture mode, it will start from Split mode.

### **Picture Freezing**

By pressing is button, you can change to freeze mode easily anytime you like. Press it again to return to normal picture.

It displays 2 pictures from the same source. One is active (left), whilst the other is still picture (right). This is very useful in order to avoid missing something or to make a note of something, such as a recipe.

Active	Freeze

#### **Photo Input Function**

With this Photo Input function, you can enjoy watching Photos from such devices as Digital Still Camera and SD card along with useful features such as Slide Show.

#### **Operating the Photo Input**

- 1. Before operating this function, make sure to turn the power OFF /Standby.
- 2. Prepare the DSC (Digital Still Camera) / USB card reader/ SD card or MMC as follows.

Digital Still Carriera	. Set up with reference to the content about
	"connecting to PC" in the user's manual of DSC.
USB Card Reader	: Insert only one memory card.
SD Card / MMC	: Ensure the card is inserted in the correct direction as
	indicated near the slot.

- **3.** Connect the USB cable to the input terminal, or insert the SD card /MMC into the slot as shown.
- 4. Turn ON the TV after the USB cable is connected or the SD card / MMC is inserted.
- **5.** Press (b) button on the remote control to activate Photo Input mode. (Then, turn ON the DSC. Refer to the user's manual of your DSC for the timing.)
- 6. Each time button is pressed, you can switch the mode as follows. → Photo → Normal Screen →

Make sure to turn the power OFF/Standby when disconnecting the DSC / USB card reader / SD card or MMC from the set.

#### NOTE

- Do not insert SD Card/MMC and USB cable at the same time.
- Do not insert anything other than SD Card/MMC into the slot. It could cause malfunction or damage to the slot. Do not allow children to play around the slot.

### **Photo Input Function (continued)**

#### Thumbnail-Size Image (Index) to Full-Size Image

\* You can also select the preferred file in both Thumbnail-size and Full-size image by inputting the file number directly with numeric buttons of remote control. If the entered number is wrong, the closest file will be selected automatically.

23 🔿

#### **Rotation Function**

• By using 🕑 button, the picture is rotated in the sequence of the following. This returns to the default setting when changing the device of images.

► 90° ← ► 180° ← ► 270° ← ► 0° ←

### **Photo Input Function (continued)**

#### **Slide Show Function**

- After selecting the slide interval [5Sec.→10Sec.→30Sec.], select "Start" and press (ok) button to start the slide show.
- You can also start the slide show when displaying the selected full size image by selecting "Slideshow" with ebutton.
- Slide Show will start with the selected file.

#### NOTE

Contrast will decrease automatically to reduce image retention if stationary images such as still photos are left on the screen for more than about 3 minutes. Please note that it is not malfunction.

#### **Selecting Device**

- After selecting a device, select "**OK**" and press  $(\circ)$  button to start.
- You can also select the device with same procedure when displaying the full size image.

#### **Photo Input Function (continued)**

#### Other

- You can access to Picture menu directly by pressing 
  button during Photo Input mode. You can set up the picture setting only for Photo Input images. Please note that some of the picture menu are not available for Photo Input mode.
- Press  $(\infty)$  button whenever you want to return from full size image to index.
- The file information is displayed by pressing (iii) button.

Thumbnail-Size Image

Full-Size Image

#### To exit from Photo Input...

You can exit from Photo Input when pressing () button in Photo Index mode.

#### **OSD** Information

Operation	Message
Normal	no message
Not available media	"No device containing pictures was found."

#### Specification

Application	<ol> <li>Digital Still Camera corresponding to DCF standard.</li> <li>USB Card Reader with the memory containing pictures had taken by ① camera.</li> <li>SD card/MMC card containing picture had taken by ① camera.</li> </ol>		
Dhata	Max number of photo file	999	
Photo	Max number of pixel* 3072 x 2304 (DCF JPEG format)		

\* The picture may not be displayed if it is taken with "high-quality" mode, or the file capacity is large.

#### NOTE

• We do not guarantee that all files meeting the above specifications can be displayed properly.

- As for SD card slot, the supportable capacity is approximately 2GB. (However, this is the rough standard. We do not guarantee the supportable capacity.)
- In case of using USB cable, this may not meet the specifications for all media depending on the performance and specification of the connected devices, such as card readers and digital still cameras.

### **Photo Input Function (continued)**

### **A**CAUTION

- In case of copying, viewing or editing a picture by computer, etc., it may not be displayed in this function.
- Do not connect any apparatus other than DSC, USB card reader, and SD card/MMC to the Photo Input connector. It causes a malfunction.
- Do not connect a DSC and USB card reader with USB HUB. Pictures may not be displayed correctly, or it causes a malfunction.
- Certain types of DSC, card readers, or SD card/MMC may not work with this Photo Input function.
- DSC with low battery power may not properly display photos in this function.
- Response time might vary depending on each image contents when switching pages, and loading files.
- The OSD message "No device containing pictures was found." is displayed in case of the incomplete connection with USB cable or SD card / MMC and connection to a digital still camera or USB card reader without the memory card.
- The functions of the multi picture, CH selection, freeze mode, aspect, mode display, and so on are not available.
- Whilst displaying images, do not remove/insert USB cable and memory card.
- The picture may not be displayed correctly, depending on the connecting device in case of extending the USB cable.
- Do not use this function other than private purposes. It might infringe copyright laws.
- Back up all of the data in the memory card in case if data was lost due to unexpected accident. We do not assume any liability for the losses by misuse or malfunction.

### FEATURES (continued)

### **Power Swivel**

With the Desktop stand, you can adjust the angle of the panel side to side by pressing button on the remote control.

- **1.** Press 🗇 button on the remote control. The Swivel Display (as shown in the figure on the right) will appear on the screen.
- Adjust the angle of the panel with → button whilst Swivel Display is on the screen. The unit will be able to rotate ±30 degrees to each side.

### **A**CAUTION

- When you use the Power Swivel function, make sure that the Power Cord, cord or chain connected to the wall is loose enough to operate the Swivel function securely.
- Do not put hands or face near the unit whilst operating the Swivel. It could cause personal injury. Beware especially when small children are around the unit.

#### NOTE

- If the stand cable is not connected to the unit, the message "Not Available" will appear on the screen.
- The Swivel Display will automatically disappear when no operation has been made for a few seconds.

### **CAUTION**

- Do not push the panel with your hands whilst operating the Swivel. It could damage the panel and/or stand.
- Do not allow children to play or hang on the TV. These actions may tip it over, causing personal injury.
- Do not swing the unit back and forth.
- Do not place any fragile objects around the unit. The unit would hit the object(s) during the Swivel operation and could cause the breakage of the objects and/or the stand.
- To operate the Swivel function correctly, place the unit on the stable surface.
- When you use the unit as wall-mounting, disconnect the stand cable from the unit before installation.

### Information

About Swivel terminal connection

- To connect the Desktop stand to the unit. Connect the designated stand cable to the Swivel terminal on the rear side of the unit.
- To disconnect the stand from the unit. Before detaching the stand from the unit, make sure to disconnect the stand cable from the Swivel terminal on the rear side of the unit.

### **CAUTION**

• Turn Off the Main Power of the unit when connecting or disconnecting the stand cable to the unit.

#### Audio Switching

#### NICAM / Sound Multiplex (including A2) (TV mode)

You can make optimum use of available audio by pressing I/II button of remote control. Audio can be switched only if receiving NICAM and sound multiplex signals; otherwise, pressing this button will have no effect, such as when only mono sound is received.

These can be divided into two main categories: Bilingual/Dual Sound broadcast and Stereo broadcast.

#### **Bilingual/Dual Sound broadcast**

Bilingual broadcast is the broadcast available on the main and sub languages, whilst dual sound broadcast is available on the primary and secondary sounds; for example, some sports programmes contain broadcast commentary on a game as primary sound, and a commentary about a team as the secondary.

When bilingual programme is received, sound mode display appears in yellow as shown. Also, when receiving NICAM signals, NICAM display will appear.

Each time I/II button is pressed, the display is switched in the sequence of following.

NICAM signal received

[I]...Main language/Primary Sound

[II]...Sub language/Secondary Sound

▼...force mono: This selects main language or primary sound.

### Stereo broadcast

With stereo broadcast, you can enjoy different sound from either side.

When a stereo programme is received, sound mode display will appear in red as shown. Also, when receiving NICAM signals, NICAM display will appear.

 $\label{eq:press_I/II} \mbox{ between stereo and mono sound.}$ 

NICAM signal received

#### NOTE

- Please select ▼ (force mono) in case of poor reception, noise, poor stereo sound due to signal condition so that you can receive a clear mono sound.
- $\bigtriangledown$  represents the Mono broadcast.

### **Power Save Mode**

#### When AV input is selected

• You are provided with the function to save power consumption when no signal is detected in AV input. Set to On in **\*Video Power Save**" from **Configuration** menu, which leads to the power save mode in AV4 /HDMI1 /HDMI2 and the Standby mode in other AV input. (Please see the table below for details) Refer to **30** about **\*Video Power Save**".

	When no signa	al is detected	When signal is input during	
	Condition	Indicating Lamp	On in "Video Power Save"	
AV4,HDMI1, 2	Power Save	Pulsing Blue	Turns On automatically.	
AV1, 2, 3, 5	Standby	Red	Remains as Standby mode.	

### **DVD** Player / STB Selection

You can use this remote control to operate DVD Player and Set Top Box of Hitachi or other makers as well as this set.

#### Set Up

Example: Hitachi DVD 2

- **1.** Set up the maker. Hold down <sup>™</sup> button and press **1** button.
- **2.** Set up the maker type.

Release the 1 button whilst keeping () button depressed. Then press 2 button.

#### **3.** Confirm the setting.

After setting the maker and type, press the **SUB POWER** button on the remote control. If the DVD does not switch ON, repeat step 1 and 2 using other maker types as listed.

#### <"DVD" Selection>

Makers of DVD Player	Set Maker	Set type	Makers of DVD Player	Set Maker	Set type
Hitachi	® 1	1~3	RCA		1
FUNAI	© 2	1	Mitsubishi		1
Pioneer	® 3	1~6	ONKYO	RED	1~3
Panasonic	© 4	1~4	ZENITH		1

[8]

#### NOTE

- Please note that not all models of the listed makers can be operated using this remote control.
- When you replace remote control batteries, the settings may be changed. In that case, set up the maker and type again.

#### **Operation Procedure**

When you use the remote control for DVD player or Set Top Box of Hitachi or other makers, press () button for DVD player or () button for Set Top Box.

You can use the buttons highlighted in the figure on the right. The  $\bigcirc$  or B button blinks in red once after you press any usable button on the remote control for DVD player or Set Top Box.

#### NOTE

The remote control buttons may not be available depending on equipment.

Usable buttons for DVD Player

Usable buttons for Set Top Box

### TROUBLESHOOTING

Before calling service technician, check the following tables first. If the problem is not be solved with the suggested procedures, contact your local dealer. For your safety, NEVER try to repair the product by yourself.

### When Following Messages Appear on the Screen

Message Condition / Action		Page

<ul> <li>Due to the bad reception, block noise interferes during DTT mode.</li> <li>(DTT mode only)</li> </ul>	Check the aerial system to improve signal quality.	14
<ul> <li>The message "The receiver is looking for new channels. Press Return button to cancel." appears during standby mode. (DTT mode only)</li> </ul>	<ul> <li>If the broadcasting changes the service, the receiver starts searching the new service during standby mode regardless of the setting. Please note this is not malfunction.</li> </ul>	

### PRODUCT SPECIFICATIONS

SPECIFICATION					
Panel	Display dimensions	Approx. 42 inches (931 (H) x 524 (V) mm, diagonal 1063mm)	Approx. 50 inches (1106 (H) x 626 (V) mm, diagonal 1270mm)		
	Resolution	1024 (H) x 1080 (V) pixels	1280 (H) x 1080 (V) pixels		
Net dimensions		including Stand: 1067 (W) x 781 (H) x 366 (D) mm excluding Stand: 1067 (W) x 713 (H) x 120 (D) mm	including Stand: 1240 (W) x 883 (H) x 423 (D) mm excluding Stand: 1240 (W) x 821 (H) x 128 (D) mm		
Net weight		including Stand: 37.0kg excluding Stand: 30.0kg	including Stand: 47.0kg excluding Stand: 41.0kg		
Ambient	Temperature	Operating : 5°C to 35°C, Storage : 0°C to 40°C			
conditions	Relative humidity	Operating : 20% to 80%, Storage : 20% to 90%	% (non-condensing)		
Power supply		AC220 - 240V, 50Hz			
Power consump	otion/ at standby	310W / < 0.8W	451W / < 0.8W		
Audio output		speaker total 20W			
(VIDEO input)					
Input terminals		<ul> <li>AV1: composite video input terminal (SCART)</li> <li>S video input terminal (SCART)</li> <li>L/R audio input terminal (SCART)</li> <li>RGB video input terminal (SCART)</li> <li>L/R audio input terminal (SCART)</li> <li>AV4: composite video input terminal (RCA)</li> <li>component video input terminal (RCA)</li> <li>L/R audio input terminal (RCA)</li> <li>AV5: composite video input terminal (RCA)</li> <li>S video input terminal (RCA)</li> <li>AV5: composite video input terminal (RCA)</li> <li>Photo input terminal (3.5mm Stereo Mini Jack)</li> <li>Photo Input : Photo Input terminal / SD card slot</li> </ul>			
Input signals	Composite video: PAL, SECAM, NTSC3.58, NTSC4.43, PAL60 Input signals HDMI: 480i, 576i, 480p, 576p, 720p/50, 720p/60, 1080i/50, 1080i/60 HDMI: 480i, 576i, 480p, 576p, 720p/50, 720p/60, 1080i/50, 1080i/60, 1080p/50, 10				
Output Signal		OUTPUT (MONITOR): composite video monitor-output terminal (RCA)         OUTPUT (MONITOR): L/R audio monitor- output terminal (RCA)         OUTPUT (HEADPHONE): L/R audio monitor- output terminal (3.5mm Stereo Mini Jack)         AV1 : composite video output terminal (SCART)         L/R audio output terminal (SCART)         AV2, 3 : composite video output terminal (SCART)         L/R audio output terminal (SCART)         D/R audio output terminal (SCART)         Optical Out: PCM			
(RF input)					
Input terminal / Re	eceiving range	ANT : 75Ω Unbalanced / 40~870MHz			
PAL B, G, H / I / D, K         RF Video System         SECAM B, G / K1 / L, L' / D,K         DVB-T					

• The unit takes at least 30 minutes to attain the status of optimal picture quality.

### Signal Input

#### S-input connector pin specifications

Pin	Input signal	
1	Y	
2	Y-GND	
3	С	
4	C-GND	
Frame	GND	

#### Photo-input connector pin specifications

Pin	Input signal		
1	5V		
2	DM		
3	DP		
4	GND		

#### **HDMI** connector pin specifications

Pin	Input signal	Pin	Input signal	
1	TMDS Data2+	11	TMDS Clock Shield	
2	TMDS Data2 Shield	12	TMDS Clock-	
3	TMDS Data2-	13	CEC	
4	TMDS Data 1+	14	Reserved(N.C. on device)	
5	TMDS Data1 Shield	15	SCL	
6	TMDS Data1-	16	SDA	
7	TMDS Data0+	17	17 DDC/CEC Ground	
8	TMDS Data0 Shield	18	+5V Power	
9	TMDS Data0-	19	Hot Plug Detect	
10	TMDS Clock+			

#### **SCART** connector pin specifications

Pin	Input signal	Pin	Input signal
1	AUDIO OUT (RIGHT)	12	Not Used
2	AUDIO IN (RIGHT)	13	RGB-R GND
3	AUDIO OUT (LEFT / MONO)	14	GND
4	AUDIO GND	15	RGB-R / S.VHS CHROMINANCE IN
5	RGB-B GND	16	BLANKING SIGNAL
6	AUDIO IN (LEFT / MONO)	17	COMPOSITE VIDEO GND
7	RGB-B IN	18	BLANKING SIGNAL GND
8	AUDIO / RGB SWITCH / 16:9	19	COMPOSITE VIDEO OUT
9	RGB-G GND	20	COMPOSITE VIDEO / S.VHS LUMINANCE IN
10	Not Used	21	GND / SHIELD (CHASSIS)
11	RGB-G IN

10	1080p/60	1920 X 1080	60.00	67.50	148.50	EIA/CEA-861B

uarantee

Thank you for purchasing this Hitachi Television.

In the unlikely event that this product should develop a fault, we undertake to repair or replace any part of the product which fails due to a manufacturing defect within 12 months of the date of purchase provided that ...

- 1. the product has been installed and used only in accordance with the instructions supplied with the product.
- 2. the product has not been repaired, maintained, or modified by any person other than a Hitachi authorized dealer.
  - 3. the product serial number has not been removed or altered.
  - •This guarantee does not apply to a product acquired second hand or for commercial or communal use.
- •This guarantee does not cover the replacement of exhausted batteries, the adjustment of user controls, or aerial alignment.
  - •Any parts replaced under this guarantee shall become the property of Hitachi Europe Ltd.

•Please note that evidence of the date of purchase will be required before any service under this guarantee is carried out.

Use the boxes provided below to record your TV's Model and Serial Number - these are found on the rating plate located on the rear of the Plasma Television. Also, record where and when you purchased this TV. This information will help any future queries you may have and should be used in all correspondence with Hitachi service centres.

This guarantee does not affect your statutory rights.

In all cases of difficulty, please consult your Hitachi dealer.
