## 2 SAFETY PRECAUTIONS

---

Make sure that your TV is on a flat surface.

Use only the accessories provided with this TV.

Do not block or cover the ventilation openings on the monitor  
If you have a wall mount, check that it is steady

### **Power source**

The monitor must be plugged with a tension source of 220 volts and 50 Hz.

### **Connection cables**

Power cord and cables must be properly routed and protected to prevent people from stepping on them and causing the monitor to fall.

### **Heating sources and humidity**

Keep the monitor dry and away from humidity.  
Keep the monitor away from heat sources

### **Cleaning and maintenance**

Unplug the monitor before cleaning it. Do not use solvents or liquids to clean the monitor.  
Only clean the monitor with a soft and dry cloth.

In case of troubleshooting, do not use spare parts other than those suggested by the manufacturer.  
Using inadequate spare parts can lead to electric shocks short-circuits fire or other incidents.

## 8 FIRST TIME INSTALLATION FOR DVB-T Freeview Channels

Because this is the first time that the receiver has been used, there are no channels stored in the receiver's memory and the First Time. Installation menu is displayed on the screen.

Using the LEFT or RIGHT keys on the remote control, make sure that the CONFIRM button is highlighted in yellow and press the ENTER key to start automatic search.

The TV will now start searching for your freeview channels, you will start to see the channels being listed in the box under channels Found.

## 8.2 MAIN MENU

Press the MENU key to enter the menu interface and press the UP or DOWN direction key to select your operation. Press the MENU key to back.

## 8.3 CHANNEL LIST

The channel list shows all the current freeview channels available on your TV. To select one use your arrow up and down then press enter.

## 8.4 FAVORITE LIST

In this section you can create your favorite channel list. The user can add channels to the favorite list from the available channels. When this option is selected, press ENTER.

## 8.5 CHANNEL SEARCH

When this option selected, press MENU key to enter and press left or right arrow to select Auto or Manual search mode then press enter to begin search.

**\* Scan Type:**

Auto Scan to search all channels in all frequency bands automatically.

Manual Scan to search one channel manually.

**\* Channel:**

Press any numeric keys to input the Channel No.

**\* Scan Mode**

You can choose to append the channels to the Channel List or replace the primary channels with them.

**\* Start Search**

## 8.6 SYSTEM SETTING

Select system setting from the menu button, from here you can select the following settings.

### A/V Setting

**\* TV Shape:** Switch the TV format from 4:3 to 16:9. Press the RIGHT direction key to select and press the LEFT direction key to change back.

**\* OSD Transparency Setting:** Changes the OSD Transparency from 0 to 100 percent. Press the left and right arrows to alter.

### First Time Installation

To reset the receiver, highlight the First Time Installation line in the menu and Press SELECT. A warning screen is displayed in case of accidental operation Highlight the Confirm button with the LEFT or RIGHT key and press ENTER to erase all the channels and settings.

## System Info

When this option is selected, press the ENTER Key to enter and then press RIGHT Direction key to select:

\* Software Version to show information of software

\* Hardware Version to show information of hardware.

## Change Pin Code

Parents can avoid their children seeing some unsuitable channels through the "Parental Setting" function. When Parental Setting is selected, press the ENTER key to enter. After keying in your Pin Code (default code is xxxxxx) through number the keypad press ENTER to confirm.

## 8.7 EPG: (Electronic Guidance)

EPG provides the program guide and program information for current channel simply press the EPG Button on your remote to view the info.

## 9 TROUBLE SHOOTING

Problem	Resolve
No signal	Aerial is not strong enough for freeview pick up. Try aerial booster or log onto freeview website <a href="http://www.freeview.co.uk">www.freeview.co.uk</a> and check your freeview coverage.
No color or low brightness	Try adjusting the contrast, the colour and the brightness
Snow on the screen	Check that all cables are correctly installed and check aerial connection.
The remote control does not work	Please check the batteries and make sure that the batteries are in correctly. Check that the Infra Red is not blocked in any way.
No sound	Make sure that you have not pressed the MUTE button or decreased the volume, also check that the correct sound system is set up.
