## Safety information

---

**Note:**

Please make sure you use the power adaptor supplied with the TV unit. If this is faulty then contact the Technical support helpline listed at the bottom of each page and request a replacement. Do not use any other AC adaptor other than the one provided. To avoid electric shock, never touch the inside of the LCD TV. Only qualified technicians Should open the case.

The DVD player is a CLASS 1 LASER product. There may be a small amount of radiation within the laser. As the laser beam used in this DVD player is harmful to the eyes, do not attempt to disassemble and avoid direct exposure to the beam with your eyes.

## **Safety Precautions**

Please read the below safety precautions carefully before operating the unit.

### **Power cord protection:**

1. Never use your LCD TV + DVD if the power cord has been damaged. Do not put anything on the power cord, and keep the power cord away from where people can easily trip over it.
2. Be sure to hold the plug when disconnecting from a mains plug, do not pull the cord in order to disconnect the LCD TV + DVD.

### **Placement:**

1. Only use the accessories that have been provided to you with the TV for set up.
2. Never place the LCD TV + DVD in areas under direct sun-light, avoid areas with high humidity, high temperatures and damp areas.
3. Place the LCD TV + DVD on a solid flat surface.

### **Non-use periods:**

Unplug the LCD TV + DVD when not in use for long periods.

### **Keep away from water & low magnetic emmitence:**

1. Do not expose the LCD TV + DVD to rain or use it near a water source that can splash onto the unit. If the LCD TV + DVD gets wet, unplug the set and contact an authorized electrician.
2. Do not clean the front panel with Ketone-type materials, ethyl alcohol, toluene, acid, methyl, or chloride as they might cause damage to the TV. Clean with a soft cloth.
3. Do not place magnetic objects close to the LCD TV + DVD this can damage the picture.

### **Stacking:**

There are 2 openings in the back of the TV these openings provide ventilation for the heat which is produced when the TV is on. To prevent overheating, these openings should not be blocked or covered. Never use the unit on a bed, sofa, rug, or other uneven surfaces. Doing so may block the ventilation openings at the bottom of the unit. If you place the LCD TV + DVD in a bookcase or some other enclosed place, please make sure you provide adequate space for ventilation.

### **Servicing:**

1. If the LCD TV + DVD/Monitor does not operate normally In particular, if there are any unusual sounds or smell coming from the unit unplug immediately and contact an authorized dealer or service center.
2. Unplug the LCD TV + DVD from the AC outlet before any servicing.
3. Make sure the service technician uses authorized replacement parts or their equivalents.  
Unauthorized parts can cause fire, electrical shock, or other hazards.

For technical Enquiries please call us on

0161 975 0458 (Office hours only 9am-5pm) Monday to Friday

## DVD OPERATON (MP3 and JPEG)

---

### Image Rotation

There are four modes to rotate a picture: Invert, Mirror, Left, and Right. These operations are allowed only when a picture is being displayed normally and will be cancelled automatically when a new picture is displayed. The arrow button is used to select the different rotation modes: UP button: Invert/Normal Down button: Mirror/Normal Left button: Turn left Right button: Turn right

### Zoom

This model has a ZOOM in/out and Zoom pan functions for JPEG pictures. The **ZOOM** button is used to turn this function on or off. When this mode is on, any picture will be displayed at the last ratio selected by the user. An OSD message will indicate the current ratio. If zoom mode is on, **FF** and **FR** buttons are used to control the ratio of zoom in/out. With ZOOM mode off, a picture is scaled to fit the whole screen. Note: during ZOOM function, slide show transition and image transformation are disabled.

### Digest Model

The **ROOT** button is used to enable JPEG digest mode. After it is enabled, up to nine scaled-down JPEG pictures will be displayed on the screen. The **NEXT** and **PREV** buttons can be used to display the next and prev nine pictures in the current directory. Each of the nine pictures will be numbered from 1 to 9. By pressing a numeral button the corresponding picture will be enlarged to fill screen, and the digest mode will be cancelled.

### Music Slide Show

Using **STEP** button in the fully stopped state to enter or exit music slide show. After entering music slide show, using **A-B** button to select a MP3 file as background audio.

Notice: During Music Slide Show, image transformation, zoom and digest are not allowed.

### LCD PROBLEM SOLVING

**If you have any problems, please try the following methods first, if failure still exists, please refer to customer service department.**

<b>No picture and no sound</b>	Check power supply and cable connection
	Make sure the power button is ON
	Check for correct setting for brightness and contrast ratio
<b>Has picture but no sound</b>	Check audio cable and audio volume
	Make sure LCD TV was not muted
<b>Picture in black and white or color problem</b>	Adjust color setting
	Check if the LCD TV tuner format selection is correct
<b>Picture or sound interference</b>	Check if LCD TV is too close to other electronic devices for potential interference.
<b>No signal display</b>	Check if selected input source and connection
	Check if the selected input source is working
<b>Remote control problem</b>	Check battery
	Remote dose not aim at LCD TV + DVD remote signal receiver
	Check if there is obstacle between remote and LCD TV + DVD
	Remote is too far away form LCD TV +DVD or the angel is too sharp
<b>Snowy picture with noise</b>	Adjust antenna location and angle for better Reception
	Check antenna location and angle for better Reception
	Check PC or the connected device for correct frequency and bandwidth
