SAFETY WARNINGS

- ◆ Before using this product, read and follow all warnings and instructions.
- ◆ This product is not intended for use by young children or infirm persons unless they are adequately supervised by a responsible person to ensure that they use this product safely.
- ◆ Young children should be supervised to ensure that they do not play with this product.
- ◆ This symbol indicates "dangerous voltage" inside the product that presents a risk of electric shock or personal injury.
- ◆ This product is intended for household use only and not for commercial or industrial use.

DO's and DON'T's

DO's

- ◆ Always power this product from an outlet with the same rating (voltage and frequency) as indicated on the rating label in the back of the product.
- ◆ If this product has been damaged (including cord or plug) take it to an accredited service technician for inspection, and if necessary, repair.
- ◆ Turn off and disconnect the power cable before cleaning or storing this product.
- ◆ Ensure this product does not get wet or splashed.
- ◆ Only use the A/C power adapter supplied with your product, or a replacement recommended by a qualified technician.
- ◆ Do not place naked flames, such as lighted candles, on the unit.
- ◆ Do not place objects filled with liquids, such as vases on the unit.

DON'Ts

- ◆ Do not install this product on top of other electrical equipment, on uneven surfaces
- ◆ Do not use or store this product in a place where it is subject to direct sun, heat, excessive dust or vibration.
- ◆ Do not use this product with wet hands.
- ◆ Do not clean this product with water or other liquids.
- ◆ Do not block or cover these slots and holes in the cabinet.
- ◆ Do not push foreign objects into cabinet slots or holes.
- ◆ The screen surface is easily scratched. Do not touch the screen with hands or any hard object.
- ◆ Do not pull the power cord when disconnecting power. Turn off the switch on the socket and pull the plug not the cord.
- ◆ Do not attempt to open this product yourself. There are no user serviceable parts inside.

LCD TV

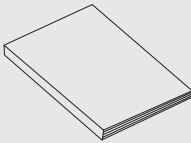

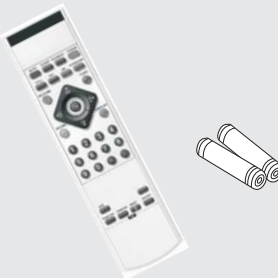

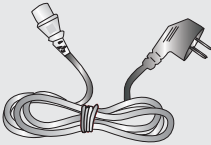

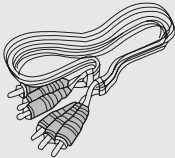

Notes:

 <p>WARNING RISK OF ELECTRIC SHOCK DO NOT OPEN</p> 	<p>The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of insinuated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.</p>	
<p>CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). REFER SERVICING TO QUALIFIED SERVICE PERSONNEL</p>	<p>The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance</p>	

WARNING:
TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS APPARATUS TO RAIN OR MOISTURE.

LCD TV

Connecting to antenna or TV radio network

In order to receive TV program, signal should be received from one of the following signal sources:

- ◆ Outdoor antenna.
- ◆ Cable TV network.
- ◆ Satellite broadcast network

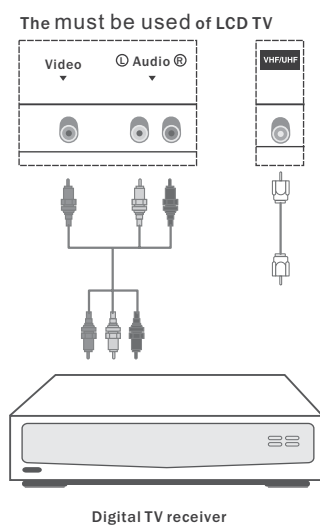

1. In these three cases, the input cable of antenna or TV network should be plugged in the 75 Ohm coaxial cable jack at the rear side of LCD TV.

2. Indoor antenna is NOT recommended for this TV

When installing LCD TV, quality 75 Ohm coaxial Cable must be used. If other coaxial cable is used, there may be noise and image disturbances.

Connecting digital TV Set Top Box

In order to receive digital TV programs, a Digital TV STB MUST be connected to the rear of the LCD TV.

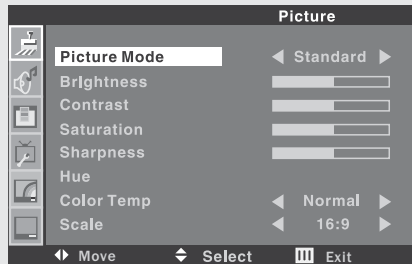

Connect the coaxial cable connector to

- ◆ The output terminal.
- ◆ The antenna input terminal.

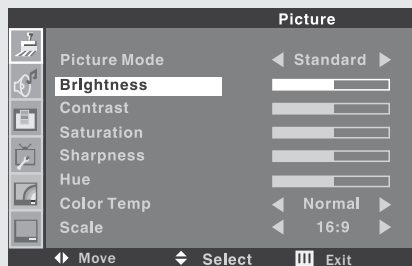

For further instruction refer to the receiver instruction manual

Trouble shooting: please contact the maintenance personnel in advance.

 Perform some basic troubleshooting procedures as the following before you contact your local support center . If the problem still exists, please record the model and serial number of your TV, and contact your local support center.

No sound and picture:

- ◆ Check if power cord is properly connected to the wall AC outlet and the outlet is electrified.
- ◆ Make sure you have pressed power on/off button on the front panel
- ◆ Check brightness and contrast setting.
- ◆ Checking volume setting.

Picture ok, no sound:

- ◆ Check volume setting.
- ◆ Check if Mute button on remote controller is pressed

No picture or only monochrome picture:

- ◆ Check color system setting
- ◆ Sound system

Interfered sound or picture:

- ◆ Try to find out the equipment that brings interference and keep it away.
- ◆ Try to plug power cord into another AC outlet

Poor picture or picture distortion:

- ◆ Check the antenna (direction and location) and /or cable connection.

Remote control cannot work:

- ◆ Replace batteries with new ones
- ◆ Clean the upper edge of remote controller (IR transmitter)
- ◆ Check contacts of the battery box.
