Welcome!

Congratulations on choosing to buy a Tevion® product. By doing so you now have the assurance and peace of mind that comes with purchasing a product made by one of Europe's leading manufacturers. All products brought to you by Tevion® are manufactured to the highest standards of performance and safety, and, as part of our philosophy of customer service and satisfaction are backed by our comprehensive 3 year Warranty. Please fill in and return the Warranty Card to the address provided. We hope you will enjoy your purchase for many years to come.

General Information and Safety Instructions

- The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of un-insulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operation and servicing instructions in the literature accompanying the appliance.

- Please read through the following safety guidelines before use.
- **Ventilation-** Slots and openings in the case are provided for ventilation to ensure reliable operation of the video product and to protect it from overheating. These openings must not be blocked or covered.
- **Water and Moisture-** do not use this video product near water for example, near a bath tub, wash bowl, kitchen sink or laundry tub, in a wet basement, or near a swimming pool etc.
- **Cleaning-** Unplug this video product from the wall outlet before cleaning. Do not use liquid cleaners or aerosol cleaners. Use a damp cloth for cleaning.
- **Lightning-**For added protection for this video product during a lightning storm, or when it is left unattended and unused for long periods of time, unplug it from the wall outlet and disconnect the antenna or cable system. This will prevent damage to the video product due to lightning and power line surges.
- **Servicing-**Do not attempt to service this video product yourself, as opening or removing covers may expose you to dangerous voltage or other hazards. Refer all servicing to qualified service personnel.
- **Battery Handling and Usage** This remote control uses 2 x AAA alkaline batteries (included)
- Never throw batteries into a fire or expose to heat sources.
- If battery is swallowed, please seek immediate medical attention

Do not dispose of this product in your household waste. Contact your local authority for details of local recycling schemes

Batteries should not be disposed of in household waste. Batteries should be taken to appropriate disposal points or alternatively contact your local authority for details on disposal schemes

Do not dispose of this product in your household waste. Contact your local authority for details of local recycling schemes

Remote Control

Remote Control Operation

REMOTE CONTROL OPERATION

1. remove battery cover
2. insert batteries
3. close the battery cover

CARE FOR REMOTE CONTROL

Aim remote control at remote sensor of DVD.

Do not drop the unit from a high position or cause high impacts

Do not place the remote control in hot or moist environments

Do not splash water or any other liquid on remote control

Distance:

The remote control works best within 7 metres from the DVD player

Do not expose the remote control sensor directly to a heat source or it will malfunction

| 2. Video output jack | 5. Digital Signal Coaxial out jack |
| 3. 2 CH Left output jack | 6. S-Video output jack |
| 7. Digital Signal Optical output jack | |

Connecting Your DVD Player

This product has a choice of three connections but these cannot be connected at the same time. The choice of connection will depend on the video jack on your TV,

- In order to connect your DVD to your TV simply use the scart lead provided to connect from the scart socket on the DVD to the scart socket on your TV itself. Then connect the power supply to a mains socket.
- Also via the AV Output socket from the DVD player using the AV cable provided (red, yellow and white) to the AV Input on your TV
- Also via the RGB socket (red, green and blue) from the DVD player to the RGB socket on your TV

Connecting to a HIFI System

If you also want to have your HIFI System connected to the DVD player you can connect via the audio output socket on the DVD using a RCA cable (red on the right, white on the left) but you must have Audio In on the HIFI System. You can also connect via an amplifier if you do not have Audio In on your HIFI System.

DVD Operation

After completing the connection of your appliance you can now switch the power to on and press the power button on the front of the unit. When you switch on your DVD your TV may automatically divert to the DVD mode and will display the Tevion logo on your TV screen (this is not the case for all appliances.) If this does not display then you may need to change your TV into the input mode you chose example scart, AV or RGB (refer to your TV user manual on how to do this.)

You will also need to press the 'Video' button on your remote to select the input mode of the DVD

- S-Video, choose S-video mode
- (Y.Cb,Cr) choose YUV mode
- Scart choose RGB mode

If you have an audio system connected you will need to choose the correct audio output on the amplifier (refer to your amplifier manual on how to do this.)

Disc Loading

Do not play any cracked broken or deformed disc. The disc is rotated at high speed, so it is very dangerous to play any broken or deformed disc and this may cause damage to the player.

Step 1: Press the 'open/close' button, the disc tray will slide out automatically

Step 2: Load a disc into the tray and press 'open/close' the screen will indicate loading and the player will identify the format of the disc, and then indicate it on the upper left of the TV screen

- After reading the disc it will go to the menu of the DVD or title menu
- When playing CD discs it will play in the sequence chapter number

Operation

During disc playback to pause the DVD press the 'play/pause' button and press this again to resume normal play

Press the 'stop' button once to stop your DVD and press 'play/pause' to resume. Press the stop button for the second time to stop the DVD completely.

Press 'previous' button, the previous chapter will be played

Press 'next' button, the next chapter will be played

By pressing the 'forward' or 'rewind' button continuously you can change the speed of skipping x2, x4, x8, x16, x32

DVD Operation

You can select a desired subtitle from the available ones encoded on the disc, this operation is only available with supported DVDs press the 'subtitle' button continuously to change between languages.

Some DVDs also have the angle feature so you can view the film from another angle, if your DVD supports this option press the 'angle' button to change viewing angle.

During DVD playback press the 'title' button to return to the DVD root menu use the direction buttons to navigate through the menu, in the chapter selection menu you can use the numeric buttons to select the desired chapter

With CD playback press the numeric buttons to select the track or use the direction buttons to navigate to the chosen track.

When using VCD discs press the PBC button to return to root menu.

Press the 'N/P' button to select either format NTSC or PAL, this will depend on the colour format of your TV.

Press the 'slow' button during DVD playback to view your disc in slow motion press this continuously to change speed ½, ¼, 1/8, 1/16

Press the 'step' button to freeze the frame and continuously press this to move from frame to frame. Press the 'play/pause' button to resume normal play

You can zoom in on your DVD by pressing the 'zoom' button the zoom size will display on screen until you resume normal size playback press this continuously to increase the zoom x2, x3, x4

USB Operation

The USB reader only performs MP3 and JPEG picture playback. The maximum capacity the USB will accept is 4GB.

Power on your DVD player ensuring no disc is inserted in the tray, now insert the USB device and press the 'DVD/USB' button. Use the direction keys to navigate to the USB option, press 'enter' to select this and a waiting message will appear on your TV screen then press 'enter' again to confirm USB. Your files will then display on the screen, you can select your desired file using the direction keys to navigate to this and 'enter' button to confirm this

Please note if using a MP3 CD you can access your files as shown above.

With USB and MP3 music selection you have the option for repeat press the 'repeat' button to select from single song play, single song repeat, folder repeat or folder play. Press 'repeat' continuously and your choice will display on the bottom of your screen.

JPEG Picture Operation

When viewing JPEG pictures your screen will display as below use the direction keys to navigate to the picture you wish to view and press the 'enter' button to view the image on screen. This will automatically go from picture to picture within the folder you can use the direction keys to rotate your picture on screen. At any time press the 'title' button to return to the root menu

Setup Menu

To enter your Setup Menu select 'setup' button to navigate through the menu use the direction keys and 'enter' to confirm your selection

WARRANTY CARD

Congratulations! You have an excellent choice with this purchase of this quality product. Our commitment to quality also includes our service. Should you contrary to expectations, experience defects due to manufacturing faults during private use within 36 months of the date of purchase we shall be liable for warranty in accordance with statutory warranty regulations provided that:

- the device was not put to any use other than the intended
- was not overloaded
- was not used with the wrong accessories
- repairs were not carried out by any other than the authorised workshop

The warranty certificate is only valid in connection with the receipt. Please keep both in a safe place.

This warranty does not affect your statutory rights.

This purchase is guaranteed for a period of three years beginning on the day of purchase. Keep your purchase receipt safe as proof of date of purchase. The guarantee can only be extended for the duration of any repair required. Should your item become defective during the warranty period, in the first instance please call our service centre on the number below, they will inform you of what to do next. We will at our discretion, either repair or exchange the device in accordance with warranty legislation.

Please enclose the following when sending your product in for repair:

1. Receipt (Proof of purchase)
2. This warranty certificate with the fault report form overleaf complete with your name contact details and fault description.

If the original receipt is not enclosed the repair will be charged in all cases. After the warranty has expired you can still send defective devices for repairs freight prepaid to the address stated below. Quotes as well as repairs after the warranty period are to be paid in all cases.

Ensure that the product is sent well packed as no responsibility can be accepted for items lost or damaged in transit. This warranty does not affect your statutory rights.
