USER GUIDE

WARNINGS

Thank you for purchasing this television. For your safety, please take time to read these instructions carefully in order to familiarise yourself with the operation of the appliance and the important safety information. We strongly recommend that this product is installed by a competent person. If in doubt, refer to the retailer or the manufacturer helpline.

Caution

This television contains no user serviceable parts. Please refer to the manufacturer or authorised repair agent in the event of malfunction. Do not remove the back cover from the television.

Warning

To reduce the risk of fire, electric shock or damage to the television, do not expose it to dust, rain or moisture, or place any objects filled with liquids on or near the television.

Do not place the television in a confined space, ensure that nothing can obstruct the ventilation openings at the rear of the television.

Do not place naked flames on or near the television.

Dispose of this television and any components including batteries in an environmentally friendly manner. If in doubt, please contact your local authority for details of recycling.

Your LCD TV should be cleaned using a dry or slightly damp cloth. You should not use an alcohol based cleaner

Safety

For your safety, this appliance is fitted with a fused moulded 3 pin mains plug. Should the fuse need to be replaced, ensure that any replacement is of the same amperage and approved with the BSI mark. (⬦)

Never try and replace the mains plug unless you have adequate qualifications and are legally authorised to do so. In the event that a replacement Mains cable is required, contact the manufacturer for a suitable replacement.

Never use the television if it is damaged in any way.

Always place the television on a flat level surface avoiding anywhere which may be subject to strong vibration. Ensure the television is not placed on top of the power cable as the weight of the television may damage the cable and cause a safety hazard.

Never place mobile phones, speakers or any other device which may cause magnetic or radio interference with the television. If interference is apparent, move the device causing the interference away from the television.

Packaging

Please save the packaging for the television as you will need this in the event of warranty/service repair or support. We are unable to carry out warranty/service if you are unable to package it correctly. The safest way to package your item in the event of warranty/service repair is in its original box/packaging

WARNINGS

Screen Burn

A characteristic of Plasma and LCD TV Panels is that displaying the same image for along time may cause apermanent after - image to remain on the screen. This is called screen burn. Most pictures shown on your TV will be constantly moving and fill the screen.

Examples of images that you need to watch out for are as follows (this is not an all-inclusive list):
- **TV Channel Logos: e.g. Shopping channel logos and pricing displays-especially if they are bright and stationary. Moving or low-contrast graphics are less likely to cause ageing of the screen.**
- **Picture-in-Picture and Multi Picture-in-Picture: Do not view for long periods of time using the Picture-in-Picture or Multi Picture-in-Picture functions.**
- **Time Displays**
- **Teletext: Do not view a stationary page for long periods of time.**
- **TV/DVD Menus: e.g. Listings of DVD disk content.**
- **Pause Mode: Do not leave the TV in pause mode for long periods of time, e.g. When watching DVDs or videos.**

Note: To prevent screen burn if viewing any of the above for long periods of time, reduce contrast and brightness when viewing. Once burn-in occurs it will never disappear completely.

How do I dispose of this product?

UK: Waste electrical products should not be disposed of with household waste. Separate disposal facilities exist. For your nearest facilities, please see www.recycle-more.co.uk or instore for details.

ROI: Produced after 13th August 2005. Waste electrical products should not be disposed of with household waste. Please recycle where facilities exist. Check with your Local Authority or retailer for recycling advice.

WHAT IS INCLUDED IN THE BOX

Accessories
Included with this TV are the following accessories:

1x - User Guide Book

1x - Remote control

1x - RF cable

2x - AAA batteries

**Please save your packaging as you will need this in the event
of warranty/service repair or support. We are unable to carry out
warranty/service if you are unable to package it correctly. The safest way
to package your item in the event of warranty/service repair
is in it's original box/packaging.**

GETTING STARTED - INITIAL SET UP

IMPORTANT - AFTER TUNING DO NOT PRESS ANY BUTTONS FOR 20 SECONDS SO THE CHANNEL INFORMATION CAN BE STORED.

TUNING IN

IMPORTANT — Please ensure the TV has reached room temperature before connecting the power for the first time

1) Connect the mains lead to your electrical outlet and switch on the TV using the switch next to where the power cable goes into the TV
2) Connect the RF Cable supplied to the **'RF IN'** on the rear of the TV and connect the other end of the cable to your TV Aerial outlet
3) Install batteries in the remote control and press the [POWER] button to turn on the TV.

The initial Set up screen will appear as below

Warning-Ensure you have connected your TV aerial to the input labelled "RF IN" on rear of TV.

Do you want to run Auto search?

YES   NO

Ensure "YES" is highlighted and press "MENU"on Remote control.

4) Once you have read the on screen message and checked that you have connected the RF cable to the 'RF-IN' on the rear of the TV, ensure 'Yes' is highlighted and press [MENU].

The TV channels will now tune in. After a few minutes, tuning in will finish and the TV will go into 'Program Edit' mode where you can move channels to the desired positions.

TELETEXT OPERATION

Teletext is a service offered by some broadcasters.

Teletext Operation

1) Press [TEXT], after a few seconds teletext page 100 should appear.
Here is an example of BBC1

2) You can now navigate to the page you require in a number of ways:

a) Press the page you require using the number buttons i.e. page 302, by pressing [3][0][2]
b) Press the colour buttons, these will take you to page indicated on screen for each colour
c) Press [P+] or [P-] these will take you to next page. i.e. if you are on page 150 and you press [P-] the page will switch to 149
3) To exit Teletext press [TEXT] at any time

Other buttons

[SIZE] this increases or decreases the size of the text on screen
[INDEX] takes you to the index page on the channels
[REVEAL] if there is an answer or something hidden this will display it
[SUBPAGE] displays the sub page if it exists

CONNECTING TO A PC - WINDOWS XP

IMPORTANT— Before connecting to a PC you must ensure that the settings of the PCs output are correct for the new LCD Monitor.

You need to do the following with your old monitor connected

1) Switch on your PC
2) When finished booting up, right click your mouse anywhere on the below, this screen will appear
3) left click your mouse on Properties, this screen will appear

4) Left mouse click on Settings, this screen will appear. Check the Screen Resolution is set to 1024 by 768 pixel. You can adjust the resolution by moving the slider on screen.
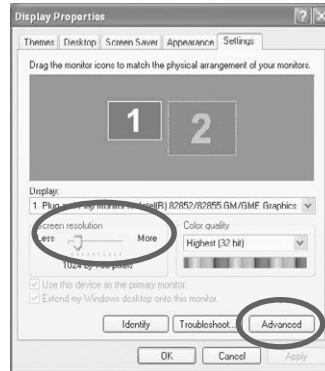

5) Left mouse click on Advance, this screen will appear, click on tab called 'Monitor'
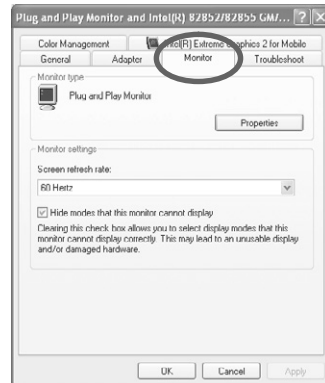

6) Left click on the drop down for Screen refresh rate and select 60 Hertz.
7) Finally click Apply, then click Yes and the settings will be saved.
8) Turn off your PC.
9) Connect up your LCD TV to your PC and switch on.
10) Switch on your PC, Windows will automatically Install the LCD TV.

For Microsoft Vista operating system the process is very similar to the above.
If you require additional support please contact the helpline.

WALL MOUNTING

IMPORTANT— BEFORE DRILLING ANY HOLES IN THE WALL ENSURE YOU ARE NOT DRILLING WHERE THERE COULD BE ANY ELECTRIC WIRES, WATER OR GAS PIPES

THIS TV REQUIRES A VESA 100 WALL MOUNT, OR EQUIVALENT
 100

To remove the stand

1) Remove the two screws highlighted below

2) The stand will now come off

Wall Mounting the TV.

1) Remove the four screws highlighted below.

2) The wall mount can now be easily attached to the mounting holes on the rear of the TV. These holes are indicated in the picture below

> **Important – Ensure the length of screws included with your wall mount that secure the Wall Mount to the TV do not exceed 10 mm. Using longer screws could cause irreparable damage to the TV**

USING WITH SKY DIGITAL

You may wish to use your TV with Sky Digital.

There are a number of connection options, the best being connecting via SCART cable.

Connecting via SCART

1) Connect the SCART cable from the Sky Digital Box to SCART of the TV
2) Press [INPUT]
3) Press [P-] or [P+] to select SCART
4) Press [MENU]

The channel your Sky Digital box is displaying will now be shown on the TV.

You may wish to share your Sky Digital signal around the home by using an RF connection. If this TV is to be connected in this way, please follow the below.

Connecting via RF
Ensure the Sky signal is switched on, before you start the below.

1) Connect the RF cable from the RF output socket of the sky/cable box to the 'RF IN' of the TV.
2) Press [MENU] to enter menu
3) Press [V+] twice to select Tuning Menu
4) Press [P-] to select Tuning Program

6) Press [V+] to select the channel you require your Sky on. Please select a channel not in use i.e. channel 6.
7) Press [P-] 7 times to select Manual Search
8) Press [V+] to enter
9) Press [P-] to select Up.
10) Press [V+] to start search.
11) Once tuned in, Press [BACK] exit.

Manually tune until you locate the Sky channel. If it stops press [>] again and the search will continue. (Often, the required is 847.25 mhz, depending on which model of Sky Set top box)

Once tuned in it will go back to TV

USING WITH SKY DIGITAL REMOTE CONTROLS (BSKYB) OR UNIVERSAL REMOTE CONTROL

You may wish to use your Sky Digital or universal remote control to operate the channels and sound functions of this TV. For this you require a 'code' that needs to be programmed into your Sky Digital or universal remote control. At the point of manufacture, BSkyB have not launched the code required for this model of TV. Sky are due to launch a new remote control which will include the necessary code to operate the basic functions of the TV during 2008 (called revision 9). The date was not released at the time of printing this manual, however it is estimated to be between July and December 2008.

FREQUENTLY ASKED QUESTIONS

Frequently Asked Questions

Question:	Solution:
How do I tilt the angle of the TV on the stand?	Hold the stand firmly in one hand and apply pressure to the top of the screen, the stand will gradually adjust.
The TV will not switch on	Ensure the switch next to where the power cable enters the TV is switched on
The sound on my TV is tinny/high pitched	Go into the sound settings menu and alter the levels of bass and treble. Increasing the bass and reducing the treble will help.
I have tuned in the TV for the first time and the sound is not in sync with the picture	Power of the TV, then switch back on and re-tune.
I received my tv without a manual or I have lost my manual	Manuals are available to download from our website, please visit www.skymediauk.co.uk for more information
I have connected the TV to my VCR via SCART but it is not recording	In addition to connecting via SCART, you should connect the aerial cable from the wall socket to VCR and another aerial cable from the VCR to the TV
